Konftel Wireless IP – Wireless IP Meetings with HD audio

Freedom of wireless connectivity combined with superior audio quality. That's what you get from the **Konftel 300Wx** when it's connected to IP telephony with HD audio via **Konftel IP DECT 10**.

Give your conference calls all the dynamism they deserve and take the HD calls on your IP telephony into wireless conference calls! HD audio provides the best sound possible for a much more natural sounding conference call. Every variation of the voice is heard for a much smoother experience.

The Konftel 300Wx can be integrated to an analog DECT base or into a third-party manufacturer's IP DECT base station. Add the optional SIP base Konftel IP DECT 10 the day you are transferring your communication to a cloud or a customer premises equipment solution. The **Konftel 300Wx** can also be connected to a Smartphone or PC for VoIP. Incorporates OmniSound® for superior audio quality, battery and smart features such as recording capability and a conference guide. Free software upgrades make it future-proof.

Konftel's optional DECT base station, **IP DECT 10**. It can have up to twenty HD-capable Konftel 300Wxs registered and support up to five simultaneous HD calls.
