Your Leading **Cloud Services Brokerage** & **Value-Added Distributor**
About Jenne, Inc.

Jenne, Inc. is a leading Cloud Services Brokerage and Value-Added Distributor serving agents and value-added resellers throughout the U.S. We focus on Unified Communications and Collaboration, Connectivity, Cybersecurity, Networking and Infrastructure, Physical Security, SD-WAN, Video Conferencing and the Internet of Things (IoT).

Jenne’s ‘high touch, fast response’ model of outstanding service and support allows our partners to be more successful, more quickly. We provide value added resellers, managed service providers, integrators and telecom service provider companies with a broad product selection from over 180 leading technology companies. Our customers value and benefit from competitive pricing and flexible financing options; on-time accurate delivery from our state-of-the-art distribution center; outstanding technical support, including design services and enablement; plus ongoing sales and technical training through the award-winning Jenne University.

Engaged Sales and Business Development Team

Jenne has a highly knowledgeable and professional sales team including:

- **Territory Sales Directors** who work with resellers to contribute to their business plan development and execution helping them to be more successful in their vertical markets.

- **Account and Partner Development Specialists** who provide resellers with personalized pre- and post-sales support including a single point of contact.

- **Business Development Specialists** who are assigned to specific vendor lines and are experts in the product, go-to-market strategies, trends and competitive information.

- **Resident experts** who support resellers in collaborative technologies, including networking, video, voice and more.

Technical and Design Support

Our technical staff has over 200 years of combined experience. Our business partners further benefit from:

- A design mentor who provides full design support while assisting your engineering team in developing increased capability and insuring uninterrupted design quality.

- Easy and quick design team accessibility and engagement, including coaching for partners to assist them in providing customer facing solutions and higher close ratios.

- A Staging and Provisioning Service that performs all the preliminary configuration, licensing and upgrades enabling you to rapidly install systems on your customers’ networks or as a stand-alone unit. Jenne fully supports our provisioning and staging service and offers the availability for individual Statements of Work on orders if required or requested.

- Jenne’s Technical Services staff are available Monday through Friday, 8 a.m. to 8 p.m. at no cost. Full 24-hour support also is available at minimal cost.

World-Class Training by Jenne University

Jenne University is the place where training and support converge. While other distributors outsource their training instructors, virtual platforms and facilities, Jenne maintains its own brick and mortar training center as well as our own virtual “cloud” lab environment where our students may gain technical or sales expertise. Our state-of-the-art training facility optimizes the learning experience. Our learning space features fully equipped classrooms and our virtual classroom environment is easy to access and learning conducive.

**We offer:**

- Available training courses include certification for Avaya, Extreme Networks, and other leading manufacturers.

- Official Pearson VUE® Testing Center, allowing Avaya students to leave Jenne University completely certified.

- Virtual Classrooms are fully equipped with the latest equipment to provide a truly interactive hands-on experience. Our virtual lab systems are modeled around real world deployments.

- Customized training maps specific to your sales and technical competency to ensure the curriculum aligns with your business needs.

- All classes are available virtually, but regional training courses available at designated sites across the country, or at a reseller’s location. For a complete schedule, visit Jenne’s website at www.jenne.com.

- Frequent live and recorded webinars available on the latest manufacturer equipment and releases.
**AVAYA**
Avaya IX Meetings provides messaging, voice, video, conferencing and team collaboration, all in one application. Avaya IX Meetings provides a powerful tool for teams to collaborate effectively on any device and from any location.

**AVTEQ**
Avteq designs and manufactures video conferencing mobile stands and consoles with a new dimension to meet the demands of current technology.

**Boom**
Boom is passionate about collaboration and their range of stylish cameras are designed and built with the highest quality for crisp, clear and vivid images. Video enables remote workers, huddle rooms, class rooms or conference rooms with their collection to achieve the best remote meetings wherever you are. With Boom cameras, enjoy professional quality video that’s easy to install.

**Chief**
Chief offers mounting solutions designed to support a wide range of audio/video applications from corporate boardrooms and facilities to home theaters and offices.

**ClearOne**
ClearOne is a global company that designs, develops and sells conferencing, collaboration, streaming and digital signage solutions for voice and visual communications. The performance and simplicity of its advanced comprehensive solutions offer unprecedented levels of functionality, reliability and scalability.

**EPOS**
EPOS delivers high-end audio solutions designed for enterprise and gaming.

**HuddleCamHD**
Offering both wireless and wired USB webcams, HuddleCamHD is most known for its affordable USB cameras with pan, tilt, and optical zoom capabilities.

**Konftel**
For 30 years Konftel’s mission has been to help people in businesses around the world hold millions of meetings despite distance. Their focus has been set on offering the perfect sound. Now it’s time to bring video into Konftel’s meeting solutions.

**Kramer**
Kramer has been on the leading edge of Pro AV innovation for over 35 years. With hundreds of employees and partners serving thousands of customers across six continents, they remain committed to delivering smart technology products and solutions for a wide variety of markets and applications.

**LG**
LG Electronics has led the way into the advanced digital era thanks to the technological expertise it has acquired manufacturing appliances since 1958. LG continues to pursue its 21st century vision of becoming a global leader in digital—ensuring customer satisfaction through innovative products and superior service.

**Logitech**
Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech’s combined hardware and software enables or enhances audio and video communication over the internet.

**Poly**
Poly is the global communications company that powers authentic human connection and collaboration. Face to face, they sift and sort millions of verbal and non-verbal cues to glean meaning. Poly is finding new ways to inject these cues into audio and video communication to replicate the face to face experience. To build intimacy. To break walls and span distance. To nurture the simplicity and beauty of human connection.

**PTZOptics**
PTZOptics is a U.S.-based company that manufactures PTZ broadcast conference cameras. PTZOptics cameras offer a wide variety of connectivity options including: HD-SDI, HDMI, USB 3.0 and IP Streaming.

**Snom**
Snom designs and manufactures professional and enterprise VoIP telephones. Snom produces robust, high-quality and feature-rich telephones.

**Yamaha**
Yamaha audio and video conferencing solutions streamline collaboration and boost productivity wherever people need to speak openly, share freely and create exceptional things. Yamaha’s considered approach to building enterprise-grade microphone systems, conference phones, and video sound bars ensures exceptional audio quality, ease of connectivity and flexibility for meetings across the table or across the globe.

**Vidyo**
Vidyo enriches people’s lives by embedding real-time video into digital communications in the moments that matter most. Millions of people around the world connect visually every day through Vidyo’s secure, scalable technology and cloud-based services. Its patented platform integrates with virtually any application environment, network, and device to deliver the highest quality experiences that strengthen teams, build trust, solidify relationships, and improve quality of life for everyone.

**Yealink**
With the outstanding technical patents of cloud computing, audio, video and image processing technology, Yealink has built up a panoramic collaboration solution of audio and video conferencing by merging its cloud services with a series of endpoints products.

**BUSINESS AND SIP TELEPHONES**

**Avaya**
Avaya is a global leader in communications, creating intelligent communication experiences for customers and employees. They build open, converged and innovative solutions to enhance and simplify communications and collaboration – in the cloud, on-premise or a hybrid of both. Avaya is committed to innovation, partnership and a relentless focus on what’s next in business communication technology.

**Allworx**
Allworx is an award-winning maker of VoIP communication systems for SMBs, providing a complete portfolio including IP phones, network switches, and advanced software options.

**AT&T**
AT&T telephone products reflect a long and distinguished history of product excellence dating back over 100 years. Today, their product line is one of the most extensive in the industry, including corded and cordless phones, answering systems and phone-related accessories.
CallTower exists to enable people to easily connect to transact business communications. Since its inception in 2002, CallTower has become a leading provider of cloud-based, enterprise-class Unified Communications solutions for growing organizations worldwide. CallTower provides, integrates and supports industry-leading, cloud-based, Unified Communications and Collaboration solutions.

CallTower provides, integrates and supports industry-leading, cloud-based, Unified Communications and Collaboration solutions. Their comprehensive suite of services includes cloud-based telephony, unified communications, collaboration tools, and professional services. With a focus on modernizing and simplifying the communication experience, CallTower offers a range of solutions designed to meet the diverse needs of businesses of all sizes. Their flexible approach allows organizations to start small and scale up as their requirements evolve, ensuring a smooth and cost-effective transition to the cloud.

CallTower's cloud telephony platform provides businesses with seamless integration of voice, video, collaboration, and contact center services. This unified approach not only enhances the communication experience for employees and customers but also streamlines the administrative tasks for IT departments. The platform is designed to be highly customizable, allowing businesses to choose the features that best align with their operational processes and budgetary constraints.

In addition to their cloud-based offerings, CallTower offers managed services and professional consulting to help businesses optimize their communication infrastructure. Their team of experts works closely with customers to understand their unique needs and develop tailored solutions that drive productivity and improve the overall customer experience. Whether it's implementing new technology, integrating with existing systems, or providing ongoing support, CallTower is committed to helping businesses succeed in the digital age.

By leveraging the latest advancements in cloud and technology, CallTower is positioned to be a valuable partner in helping businesses transform their communication landscape. From small startups to large enterprises, CallTower offers the flexibility and expertise needed to navigate the ever-evolving world of business communications. Whether it's enhancing internal collaboration, improving customer service, or simply reducing costs, CallTower is here to help businesses communicate more effectively and efficiently.
Help keep your network connected and protected with secure network solutions. Get connectivity, network management, integrated advanced security capabilities with real-time network insights, and the power to control it from anywhere. It's secure network solutions — only from Comcast Business.

Founded in 1962, Comm-core has evolved from an office products supply store to a leading innovator behind IP-based, hosted solutions. Leveraging their strengths in VoIP telecommunications, Comm-Core has taken the same knowledge and expertise and applied it to the security and surveillance markets. The result has been a hosted video surveillance solution that is leaner, higher quality and costs less to operate than competing products. Comm-Core Surveillance offers 24/7 live video monitoring, two-way audio communication and over 25 business and analytical features.

EnGenius Cloud enables SMBs and larger enterprises to focus on business growth by providing quick configuration and installation, reliable performance, predictive analysis, and real-time insights for companies that need to manage their wireless networks easily and securely without servers.

Extreme Networks delivers software-driven networking solutions that help IT departments everywhere deliver the ultimate business outcome: stronger connections with customers, partners, and employees.

FatPipe®, the inventor and multiple patents holder of software-defined wide-area networking (SD-WAN), reliability, security, and WAN Optimization products, specializes in providing solutions that transcend Wide-Area Network (WAN) failures to maintain business continuity. Over the last 12 years, FatPipe has the largest installed base of customers in software-defined network WANs, including numerous Fortune 1000 companies.

Fusion Connect manages, orchestrates and secures the critical technology infrastructure that enables the connected enterprise. They tailor their highly available and secure cloud communication, collaboration, security and network management platforms to meet the unique needs of their mid-market and enterprise customers. Their AI-based management systems along with their highly skilled technicians ensure world-class application performance under any conditions.

Intermedia is a Unified Communications as a Service (UCaaS) and business cloud email provider hyper-focused on delivering easy-to-use and secure communication and collaboration solutions to SMBs and the partners that serve them.

From the first telephone pole and open wire to the latest broadband technology, Ironton Telephone's focus has remained the same: affordable, dependable service for its customers, a stable work environment for its employees and on-going support for the community. SIP trunking from Ironton Telephone is the simple, cost effective solution to cut costs and increase efficiency in every aspect of your business.

Lifesize offers this experience through a unique integration of plug-and-play HD camera systems and HD phones and easy-to-use cloud-based conferencing software.

LogMeIn is simplifying how people interact with each other and the world around them to drive meaningful insight, deeper relationships and better outcomes for all. This has helped LogMeIn grow to become one of the world’s top 10 SaaS companies with over 25 business and analytical features.

Lumen is a multinational technology company that enables companies to capitalize on emerging applications and power the 4th Industrial Revolution (4IR). This revolution is redefining how we live and work, creating an unprecedented need for an advanced application delivery architecture—designed specifically to handle the complex and data-intensive workloads of next-gen technology and businesses.

Momentum Telecom is a premier provider of Business Voice, BBX Broadband Management and Unified Communications solutions. Momentum's solutions offer smart, customizable cloud-based applications including voice, video and collaboration tools that enhance business productivity and efficiency for direct customers and more than 500 nationwide white label and channel partners. Momentum Telecom is committed to delivering superior products backed by a geo-redundant network paired with industry-leading uptime and customer service.

Nextiva’s mission is to provide reliable unified communications products backed by a dedication to delivering ‘Amazing Service’ to businesses across the country. Their cloud-based phone systems, fax communications, and web-based tools are designed to increase flexibility, productivity, efficiency, and productivity for businesses of all sizes in a variety of industries.

PanTerra is a business-class Unified Cloud Service Provider, seamlessly delivering unified communications, team messaging, contact center, file sync & share, and business analytics through Streams, its unified cloud solution. Streams is a business-class, HIPAA secure, ultra-reliable, future-proof unified cloud service that can be custom configured on a user-by-user basis and consistently deployed worldwide.

RingCentral is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises of all sizes use RingCentral Communications solutions to simplify customer premise configurations for quick and smooth installations, reduce time to market and deliver rapid return on invested capital. The company helps customers deliver intelligence at the network edge with its Network Edge Orchestration platform that includes Intelligent Edge ESBCs and QuickConnect certification program, and the EdgeView Service Control Center.

Ribbon Communications is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises have deployed worldwide.

RingCentral, Inc. (NYSE: RNG) is a leading provider of global enterprise cloud communications and collaboration solutions. More flexible and cost-effective than legacy on-premises systems, RingCentral empowers modern mobile and distributed workforces to communicate, collaborate, and connect from any location, on any device and via any mode. RingCentral provides unified voice, video, team messaging and collaboration, conferencing, online meetings, digital customer engagement and integrated contact center solutions for enterprises globally. RingCentral’s open platform integrates with leading business apps and enables customers to easily customize business workflows.

Sangoma is a leader in enterprise, value-based communications, delivering industry-leading quality at price points that enhance customers’ ROI. They offer businesses of all sizes affordable cloud-based and on-premise Unified Communications (UC) systems with enterprise-caliber features.

SIPPIO is 100% Azure native to ensure peace of mind with high availability, failover and security across the globe. SIPPIO architected a fully automated, end-to-end cloud solution providing top grade carrier services through certified session border controllers running exclusively in Microsoft Azure.

Spectrum Business improves and secures your connection to key cloud service providers with their Cloud Connect service. Cloud Connect provides a dependable, private cloud connection for accessing Amazon Web Services and Microsoft Azure.

Star2Star was founded in 2006 with a passion for revolutionizing the world of business communications. For small and large businesses, Star2Star unifies and simplifies complex communications activities. For employees, they deliver a culture of innovation, diversity, and individuality.
ThreatProtector provides the protection, visibility and products for Cybersecurity challenges. They provide the most effective security awareness training, email encryption, and device endpoint protection for businesses of any size.

TransmosisONE protects small businesses from the world’s most sophisticated cyber threats. It is the industry’s first Artificial intelligence cybersecurity platform and 24/7 live virtual Security Operations Center with fully integrated cyber liability coverage. TransmosisONE uses monitoring around the clock to effectively protect your customers’ small business while they sleep.

Vault America is a leading provider of cloud-based storage specializing in data backup, recovery, and archiving solutions. From small businesses to multinational enterprises and designed for channel partners, customers use Vault America’s cloud storage services to solve their data protection, retention and business continuity challenges.

UJET is the world’s first and only cloud contact center platform for smartphone era CX. By modernizing digital and in-app experiences, UJET unifies the enterprise brand experience across sales, marketing, and support, eliminating the frustration of channel switching between voice, digital, and self-service for consumers.

Partnering with WOW! Business provides access to unparalleled carrier diversity and a superior operating environment where service and uptime are paramount. With the WOW! Business network as your foundation, your customers can leverage the strengths of over 32 different carriers, or utilize WOW!’s Layer 3 private network for low latency connectivity, to create a customized, best-in-class data center solution, managed by WOW! Business.

Zoom helps your customers express ideas, connect to others, and build toward a future limited only by their imagination. Zoom’s frictionless communications platform is the only one that started with video as its foundation, and they have set the standard for innovation ever since. That is why Zoom is an intuitive, scalable, and secure choice for large enterprises, small businesses, and individuals alike.

**HEADSET SOLUTIONS**

**AVAYA**
Avaya is a global leader in communications, creating intelligent communication experiences for customers and employees. They build open, converged and innovative solutions to enhance and simplify communications and collaboration – in the cloud, on-premise or a hybrid of both. Avaya is committed to innovation, partnership and a relentless focus on what’s next in business communication technology.

**ClearOne.**
ClearOne’s CHAT USB PC headsets for unified communications combines comfort, durability and the legacy audio quality you expect from ClearOne.

**EPOS**
EPOS delivers high-end audio solutions designed for enterprise and gaming.

**Logitech**
Logitech provides headsets for use on all operating systems and platforms.

**Poly**
Poly is the global communications company that powers authentic human connection and collaboration. Face to face, they sift and sort millions of verbal and non-verbal cues to glean meaning. Poly is finding new ways to inject these cues into audio and video communication to replicate the face to face experience. To build intimacy. To break walls and span distance. To nurture the simplicity and beauty of human connection.

**Snom**
Snom headsets are tested specifically for use with the Snom telephones, and they are designed for good wearing comfort. The microphone is noise-cancelling so there is no compromise on voice quality.

**Yealink**
Yealink’s over-the-head style headset is made for office worker, SOHO, or call center staff. It is compliant with the full range of Yealink enterprise IP phones.

**INSTALLATION SUPPLIES AND TOOLS**

**Algo**
Algo is a trusted supplier and partner in telecommunications, with millions of IP endpoints, including PoE speakers, horns, paging adapters, strobos, push buttons, doorphone/intercoms, and specialty handsets, shipped globally.

**Altronix**
Altronix Corporation is a leading designer and manufacturer of low voltage electronic components. Altronix offers a comprehensive line of security, fire, CCTV, access, nurse call and automation products.

**CableSys**
CableSys is a leading manufacturer of fiber optic, telephone and category cables and accessories. Their focus is on building strong connections with the latest technology and cost efficient solutions with their products.

**Fluke Networks**
Fluke Networks is a provider of Category 5e and 6 test equipment, telephone DSL/ISDN test equipment and telecom tools.

**Garvin**
Garvin is a manufacturer of quality electrical, datacom and telecom hardware.

**Greenlee**
Greenlee is a provider of quality tools to the electrical industries.

**Hitachi Cable Manchester, Inc.**
Hitachi Cable Manchester, Inc. is a manufacturer of copper premise cable, fiber optic cable, electronic round cable, electronic ribbon cable and custom cable.

**Resideo’s Genesis Series**
Resideo’s Genesis Series provides a full range of cables for security, fire, sound, video, structured cabling, voice and data, and other low voltage applications.

**Hubbell Premise Wiring**
Hubbell Premise Wiring is a global manufacturer of structured cabling systems, enclosures and accessories, providing intelligent infrastructure solutions.

**ICC**
ICC is a performance-value leader in network connectivity and cable management including: workstations, fiber optic systems and outlets, racks and cable management and raceway systems.

**Ideal**
Ideal is a provider of products that range from wire connectors, benders, lubes and fish tape to sophisticated electrical testers, datacomm equipment and ergonomically designed hand tools.
PAGING, INTERCOM, AND PUBLIC ADDRESS SOLUTIONS

Algo is a trusted supplier and partner in telecommunications, with millions of IP endpoints, including PoE speakers, horns, paging adapters, strobes, push buttons, doorphone/intercoms, and specialty handsets, shipped globally.

Avaya is a global leader in communications, creating intelligent communication experiences for customers and employees. They build open, converged and innovative solutions to enhance and simplify communications and collaboration – in the cloud, on-premise or a hybrid of both. Avaya is committed to innovation, partnership and a relentless focus on what’s next in business communication technology.

Bogen is a leading provider of sound systems and telephone peripherals for commercial, industrial and institutional settings including overhead paging, school intercom and signaling to large-scale concert music systems.

Eaton’s “Cooper Notification” business offers a full line of mass notification solutions applicable but not limited to the retail, government, military, industrial and education sectors.

Gai-Tronics is a provider of industrial handset, emergency hands-free telephone equipment and outdoor beacons.

Louroe Electronics’ mission is to provide proprietary and patentable, market driven, high-quality audio capture and response technology. Their signature products include the Verifact® series of analog microphones and accessories, the Digifact™ line of IP microphones, and a suite of audio analytics that provide threat detection. These solutions are delivered in versatile and adaptive technology employed in industries across the board, including law enforcement, education, hospitality, healthcare, gaming, retail, transportation, and more.

Spectrio is one of the nation’s leading end to end technology-enabled audio and video marketing companies, providing professional content and managed services on a monthly subscription basis. Their solutions, consisting of On-Hold Messaging, Digital Signage and Overhead Music, enable their clients to engage, educate and entertain their customers, across all customer touch points.

Status Solutions provides situational awareness solutions with expertise in vertical markets such as senior housing, healthcare, education and government.

Valcom is a provider of page control interfaces, VoIP LAN/WAN connectivity, ceiling/wall speakers, paging horns, Privacy Spot sound masking, power supplies and door entry systems.

Viking is a provider of telephone accessories, entry controllers and door boxes, apartment entry systems, elevator access and communication devices, industrial paging and telephony control devices.

Zenitel Group is the world leading provider of intelligent communication solutions, focused on IP Intercom, Video Intercom, and Telephony Communications. Zenitel ensures seamless interoperability with IPBX and VoIP systems around the world.

POWER PROTECTION/UPS

APC is a manufacturer of network-critical physical infrastructure (NCPI) solutions, designed for both home and corporate environments of all sizes.

DITEK Corporation has been the industry leader in the design and manufacturing of surge protection devices and systems for more than 20 years. DITEK provides total surge solutions for low voltage CCTV, Fire and Intrusion, Access Control, and Voice/Data/Signal applications, including VoIP and PoE. They also offer a complete line of hardwired suppressors and arrestors for main and distribution panels, as well as point of use equipment.

ITW Linx is a provider of a full line of lightning and surge protection products covering the breadth of the AC, telecom and datacom markets – from rack mount solutions to pair-by-pair block protectors.

Minuteman Power Technologies is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices (UPS products are available from 325VA to 10KVA).

Tripp-Lite is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices for both individual station or network systems.

Xtreme Power Conversion™ designs, produces and delivers power quality and data center solutions with UPS and power distribution equipment that solves real-world customer problems while providing one of the best cost-to-performance ratios in the industry.
AudioCodes designs, manufactures, and sells advanced Voice over IP and converged VoIP and data networking products, applications and professional services to global enterprises, medium and small businesses, as well as to service providers. Their extensive product range includes IP phones, session border controllers (SBCs), media gateways, mobile VoIP clients, multi-service business routers (MSBRs), routing applications, call recording, voice dialing, and more.

Belkin is an award-winning manufacturer for networking solutions, accessories for iPads, and the first Cable-Free USB Hub, PureAV cables, power, and digital wireless accessories.

CEECO is a provider of emergency, security, courtesy and public telephone equipment, delivering high quality technology to its customers in the private and public business sectors.

Cortelco, a leading supplier of telecommunication products, continues to be the chosen supplier for residential and business consumers. Our commitment to quality products, competitive pricing and customer service excellence have contributed to our continued success spanning 111 years in the industry.

Louroe Electronics’ mission is to provide proprietary and patentable, market driven, high-quality audio capture and response technology. Their signature products include the Verifact® series of analog microphones and accessories, the Digitfact™ line of IP microphones, and a suite of audio analytics that provide threat detection. These solutions are delivered in versatile and adaptive technology employed in industries across the board, including law enforcement, education, hospitality, healthcare, gaming, retail, transportation, and more.

Multi-link is a manufacturer dedicated to the development and marketing of high quality telecommunications devices, including remote power management and fax phone switch devices, for a wide variety of commercial and government applications.

MultiTech is a global manufacturer of award-winning external and embedded modems, and unified communications products that connect data over cellular and analog networks from anywhere in the world.

PM Power Products provides power management and survivability products, equipment cabinets, SIP devices including video door boxes, paging amplifiers, remote control and alerting devices, and web conferencing solutions.

Surecall manufactures and sells a line of high-quality cellular amplifiers and accessories for the cell phone market. Their current flagship products are the SureCall™ line of FCC-approved signal amplifiers, which boost the range and reception of almost any call.

TeleMatrix hotel phones are beautifully engineered to fit the color, decor, and technical requirements for hotel guest rooms, lobby, and common areas. Choose from their 9600 Series cordless and 3300 Series corded models in analog or VoIP with optional color accent handset kit options.

Viking is a provider of telephone accessories, entry controllers and door boxes, apartment entry systems, elevator access and communication devices, industrial paging and telephony control devices.

AdvaTel is a leader in many specialist disciplines in the development of value-added solutions within the telecommunications and contact center industries. Their solutions range from real-time analytics reporting to SIP based telephony attendant consoles, marketed globally through its cross sections of industry business partners.

CI is a developer of Interactive Voice Response (IVR), Computer Telephony Integration (CTI), Web-IVR integration and voicemail unified messaging into vertical and general business solutions.

Calero offers a wide range of Communications Lifecycle Management (CLM) solutions designed to turn communications data into actionable insight by simplifying the management of voice, mobile and other unified communications (UC) services and assets.

DATEL Software Solutions, LLC creates innovative, user-friendly, contact center and call accounting solutions at an affordable price. DATEL has displaced many traditional reporting packages and carved out a niche in the telecommunications software industry.

DuVoice is a developer of stand-alone voicemail systems, messaging system software and turnkey systems for general business office environment and the hotel/motel industry.

Edge provides services for complex implementation of Unified Communications, Contact Center, and networking solutions.

EnGenius products are designed for the SMB and large enterprise markets, providing long-range wireless communications solutions in demanding business environments including indoor/outdoor wireless LAN products, client bridge access points, multi-gig switches, and routers.

Market leader in innovating and producing cost-effective, high-quality hardware and software-based telecommunications solutions that can be used by any business.

Mutare is an independent software developer driven by a passion to make information access easier. Mutare writes software solutions to unify communications specializing in messaging, mobile apps, self-service IVR and notification systems.

PICA Product Development, formerly known as Nel-Tech Labs is a USA manufacturer of audio messaging systems. These devices provide solutions for various applications including: Music and Message On Hold, Business Music and Timed/Triggered Messaging.

Trisyx is a designer of employee productivity and resource software that lets management clearly identify how employees utilize their time for business and non-business purposes.
Networking Infrastructure & Storage Solutions

ADTRAN is an established supplier of advanced transmission products for connecting and integrating today's expansive telecommunications networks developed to address high-speed, digital communication. Products include solutions for IP telephony/VoIP, networking equipment solutions, enterprise wireless solutions, including delivering cloud connectivity via high-performance, secure and reliable solutions.

Altronix Corporation designs and manufactures high quality low voltage electronics for the video surveillance, security, fire, access control and automation markets.

AudioCodes designs, manufactures, and sells advanced Voice over IP and converged VoIP and data networking products, applications and professional services to global enterprises, medium and small businesses, as well as to service providers. Their extensive product range includes IP phones, session border controllers (SBCs), media gateways, mobile VoIP clients, multi-service business routers (MSBRs), routing applications, call recording, voice dialing, and more.

Cambium Networks enables service providers; enterprises; governmental and military agencies; oil, gas and utility companies; Internet service providers; and public safety organizations to build powerful communications networks, reach users from 200 kilometers across mountain tops down to their devices, and intelligently manage their business Wi-Fi infrastructure through end-to-end network visibility and actionable analytics.

ComNet is a manufacturer of audio, video, data and Ethernet communication products. ComNet focuses on providing innovative communications networking solutions to the Security Market, Intelligent Transportation System Markets and Power Transportation and Distribution Market. The product line consists of fiber optic video, data and audio transmission products as well as a broad Fiber Optic, Wireless and Copper media Ethernet product line and designed from the start to set the standard for transmission products in the markets ComNet competes in.

Dell empowers countries, communities, customers and people everywhere to use technology to realize their dreams. Customers trust them to deliver technology solutions that help them do and achieve more, whether they are at home, work, school or anywhere in their world.

Ribbon Communications is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises of all sizes use Ribbon Communications solutions to simplify customer premise configurations for quick and smooth installations, reduce time to market and deliver rapid return on invested capital. The company helps customers deliver intelligence at the network edge with its Network Edge Orchestration platform that includes Intelligent Edge SBCs and QuickConnect certification program, and the EdgeView Service Control Center.

Extreme Networks delivers software-driven networking solutions that help IT departments everywhere deliver the ultimate business outcome: stronger connections with customers, partners, and employees.

FatPipe Networks invented the concept of software-defined wide area networking (SD-WAN) and hybrid WANs that eliminate the need for hardware and software, or cooperation from ISPs and allows companies and service providers to control multi-link network traffic. FatPipe currently has 10 U.S. patents and more than 180 technology claims related to multipath, software-defined networking and selective encryption of broadband networks. FatPipe technology provides the world's best intra-corporate wide area network solutions that transcend Internet and other network failures to maintain business continuity and high transmission security. FatPipe, with several thousand customers, has offices in the United States and around the world, with more than 700 resellers worldwide including almost all national resellers in the US.

Engeni…

KTI Networks is a manufacturer of a broad range of network products which include network interface cards, transceivers, media converters and switches.

Multi-Tech is a global manufacturer of award-winning external and embedded modems, and unified communications products that connect data over cellular and analog networks from anywhere in the world.

NETGEAR is a manufacturer of routers and gateways, Ethernet bridges, VoIP access points, managed and unmanaged gigabit switches, VPN firewall routers and PoE switching devices.

NVT Phybridge is the leader in long reach PoE, making IP connections in far places simple. Their CHARiOT series of long reach switches helps their customers migrate to an IP-based network, transforming the existing or new infrastructure into an IP path with power.

Each ViewZ monitor is designed and built with superior components and durable materials which stand up to the harsh environment of non-stop, around the clock in security, digital signage and pro video production applications.

Zenitel Group is the world leading provider of intelligent communication solutions, focused on IP Intercom, Video Intercom, and Telephony Communications. Zenitel ensures seamless interoperability with IPBX and VoIP systems around the world.
Design Center

- The application to request designs for both Midmarket and Enterprise solutions saves you a great deal of time initializing new or upgrade designs.
- This application is utilized for both perpetual, subscription and all Avaya Professional Services requests. No need to use multiple platforms thus saving you time and frustration.
- Every design is stored for historical reference, providing your company a record for trouble free retention if required.
- You will receive real-time notification of completed requests and updates, reducing communication gridlocks between engineers.
- 24/7 availability to partners, initiate or maintain designs on your own schedule.

Jenne Solutions Designer (JSD)

Jenne Solutions Designer is a multi-vendor online configuration tool that enables business partners to quickly design a solution into a real-world configuration. It seamlessly identifies complementary solutions, including pricing and availability, all in an environment that can be shared privately with your colleagues, customers and experts at Jenne.

Jenne Cloud Design Center

After a reseller hosts a consultative appointment or conference call with their customer, they can easily access Jenne’s Cloud Design Center web portal and complete the answers to questions that will allow Jenne’s cloud specialists to create a customized proposal for the best cloud solution for their customer’s business and situation.

Web-Based Resources Available 24/7 at Jenne.com

Jenne’s website is the place to access product information and transact business for over 180 manufacturers which we represent. We offer:

- A searchable online product catalog with secure online ordering capability 24/7. You can check pricing and stock status; build order templates for repeat orders; create online tracking information; access your account information; review past orders and more.
- Manufacturers’ microsites that contain current promotions, special announcements, documentation, end of sale notices, reward updates, fact sheets, product documentation, presentations, newsletters and more.
- Plus, we also offer timely email announcements on product revisions, new product introductions, price changes and other important information.

Financing

Jenne offers assistance and processing of a wide variety of financing options to assist you in successfully managing your business. Our team is dedicated to helping you find the right financing options for your business as well as assisting you in the entire process from start to finish. We work to ensure that our customers achieve the financial success they are striving for.

Financial services available:

- Proactive searches by relationship managers to find financing solutions beyond normal credit terms.
- Leasing programs to help improve cash flow while freeing up credit lines to increase sales and profitability.
- Floor plan/working capital programs with flexible payment terms to help ease cash flow demands.

Operational Support and Excellence

Jenne provides unparalleled operational support — we are experts in distribution! Your business benefits from:

- An industry-leading order accuracy rate — 99.98 percent — supported by a 99.89 percent on-time shipment rate, means that you receive the right product when and where you need it.
- Expedited ‘out of the box’ failure replacement support.
- Single point of shipment ensuring a cohesive order fill, immediate order turnaround and industry leading ‘ship complete’ performance.
- Custom branded delivery documents that enhance your identity. Cut days and cost out of your deliveries by utilizing Jenne’s logistic capability to drop ship your customer’s order directly to them. We will include shipping documents with your branding and your customer’s purchase order number to ensure ease of receipt.
