# Kerauno
Fact Sheet

About Kerauno

Kerauno is a global communications Software as a Service (SaaS) leader that is advancing communication interactions with powerfully intuitive solutions, deeper engagements and greater intelligence.

Kerauno powerfully connects people, process, software and systems by infusing key modes of communication including UCaaS, Kerauno Launch Text Engagement Platform, Chat+ Employee Collaboration, Contact Center Integration and Workflow Solutions. Kerauno has also begun an early adopter invite program around their next generation intelligent workflow platform which advances communication interaction across disparate businesscommunication systems through predictive intelligence, automated workflows and intuitive process.

KERAUNO UCAAS
Kerauno UCaaS is redefining the unified communications experience. Kerauno UCaaS delivers a more complete suite of leading cloud-based VoIP solution for voice, collaboration, and contact center services. All are fully integrated to deliver a powerfully intuitive experience. Businesses can now get the most out of their communications through a truly unified suite of capabilities – all for one unified price.
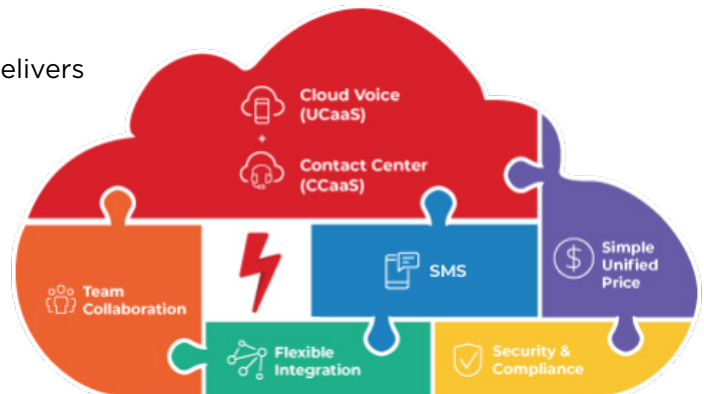

KERAUNO CHAT+
Chat+ is Kerauno's chat, collaboration and file sharing tool that triggers more natural, real-time collaboration via public channels, private channels or direct messages.

KERAUNO LAUNCH
Kerauno Launch is a powerful text engagement platform that delivers real-time, two-way communication to drive greater impact and deeper engagement with fans, employees or communities. The platform combines powerful capabilities with an easy-to-use interface, meaning it's easy to get up and running and even easier to maintain.

KERAUNO IS ADVANCING COMMUNICATION INTERACTIONS
Kerauno is changing human interactions via leading SaaS business communication solutions. Too often, technology creates unnecessary barriers between people, people and systems, and system to system. Kerauno is breaking down those barriers by designing powerfully intuitive capabilities to help businesses get the most out of every interaction. With increased productivity, deeper engagements and optimized business process, Kerauno's solutions will improve the way people interact like never before.

SWITCHING TO KERAUNO UCAAS MAKES GOOD SENSE:
• No capital expense and no ongoing cash flow surprises.
• Reduce IT complexity and investment, rapid deployment.
• Flexible integrations with 3rd party applications.
• Powerfully intuitive user and admin experience.
