

# Transform the Way Your Customers Collaborate in Any Meeting Space

Jenne and Logitech ensure your customers can achieve an effective and professional collaborative experience with easy, reliable and innovative video and audio solutions—for every conference room or workspace.

## Why Logitech?

Success in the modern workplace depends on clear communication and effective collaboration. Getting the most out of every meeting and call is key to extending your brand and building new customer relationships.

Logitech advanced video conferencing solutions allow your customers to connect with the people they are engaging with. By transforming the way teams collaborate with innovative and elegantly designed video collaboration solutions—that are amazingly affordable—Logitech has a solution for every type of room or workspace.

Best of all, Logitech partners with the most popular video conferencing platforms—including Microsoft Teams, Skype for Business, Zoom, Google Meet, WebEx and others to ensure their integrated solutions help keep your customers connected with the platform of their choosing.

With Logitech your customers' meetings will become seamless, productive, and fun.

## Logitech Room Solutions

Designed for rooms of all sizes, Logitech Room Solutions include everything to build meeting rooms of virtually any size. Logitech Sync, a “freemium” remote management tool, makes it easy to support large scale video deployments while minimizing site visits and trouble tickets.

## HUDDLE AND SMALL ROOMS

### Rally Bar Mini

The small room configuration with Logitech Rally Bar Mini delivers superior audio and video in a compact, all-in-one form factor. Clean cabling and flexible mounting options allow for easy deployment at scale.

### Meetup

With a room capturing, super wide 120° field of view, MeetUp makes every seat at the table clearly visible.

## MEDIUM ROOMS

### Rally Bar

Experience brilliant optics and room-filling audio with the medium room configuration with Logitech Rally Bar, an all-in-one video bar purpose-built for midsize rooms. Clean cabling and flexible mounting options allow businesses to confidently deploy at scale.

### Rally

Modular conferencing system for mid-sized meeting rooms.

## LARGE ROOMS

### Rally Plus

Featuring the expandable Rally Plus conference camera system, the large room configuration combines easy management with outstanding coverage across a wide range of room sizes and layouts.

## ADD-ONS

### Logitech TAP

Video conferencing room solutions with Logitech Tap deliver calendar integration, touch-to-join, instant content sharing, and always-on readiness.

### Logitech Swytch

Logitech Swytch solves the compatibility objection to service-attached room solutions like Microsoft Teams® Rooms and Zoom Rooms. Simply launch the software on a laptop and connect with Swytch.

# Personal Collaboration Spaces

Making a video call in a personal workspace requires avoiding distractions and staying in control of what viewers can see. Logitech personal collaboration solutions can turn any desktop into an instant collaboration space.

## Brio Ultra HD Pro Webcam

Logitech's best 4K webcam comes packed with advanced features, including 4K UHD, 5X zoom and RightLight 3 technology with HDR for truly amazing video quality.

- 4K Ultra HD image sensor
- Built-in dual stereo mics with automatic noise reduction
- Infrared technology supports facial recognition for advanced security with Windows Hello
- Expansive field of view—narrow or wide—65°, 78°, and 90°
- Easily connects to PC, Mac and Chrome devices with no additional software required

## C930e Business Webcam

Designed for business, Logitech's C930e is the most advanced 1080p HD business webcam on the market—enabling true-to-life collaboration with the widest-ever business webcam field-of-view for superior video conferencing.

- The first webcam with HD 1080p H.264/SVC UVC 1.5 encoding
- 90-degree field of view, pan, tilt and 4x digital zoom
