

Solutions for Business: **Personal Workspace**

The new personal workspace

Logitech personal workspace solutions provide an enterprise-grade ecosystem of hardware and software to support collaboration for all types of employees, regardless of where or how they work.

Our complete personal workspace solutions put employees at the center, offering tailored, high-quality tools to help them perform at their best, while enabling simple deployment and management for IT.

All people, all spaces

In the office, at home, or on the go, employees are better equipped for the demands of work with Logitech tools.

Built for business

Logitech is a trusted leader in business technology for the desktop. From our first computer mouse meant for everyone, to complete desktop solutions designed for a range of employee needs, Logitech has a long track record of building innovative products that drive productivity — and that employees truly love.

Complete ecosystem

Our products form a complete personal workspace ecosystem, enhanced by software solutions. They're globally available and meet strict business security standards. Our headsets and webcams are certified by *Microsoft*, *Zoom*, and *Google*. Our wireless mice and keyboards include the Logi Bolt USB receiver for a reliable, secure connection.

Remote management & insights

Sync empowers IT teams to manage devices remotely, monitor usage, ensure compatibility through firmware updates¹, enable desk booking, and gather space utilization insights — all from one central space.

Design for Sustainability

We actively integrate Design for Sustainability principles into new product development and updates. Software updates and replaceable parts extend the life of devices.

3 in 4

products are now made with Next Life Plastics

73%

of new products are shipped in FSC™-certified paper packaging

66%

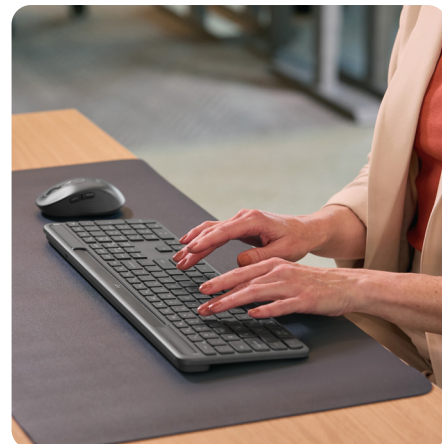

of product lines use low-carbon aluminum

Designed for people

At the end of the day, the success of your business depends on your people. By prioritizing usability, comfort, and innovation, our solutions unlock the full potential of your workforce.

One size does not fit all

We offer a variety of mice and keyboards to suit different working needs, along with a range of headsets and webcams that cater to different wearing styles and personal preferences.

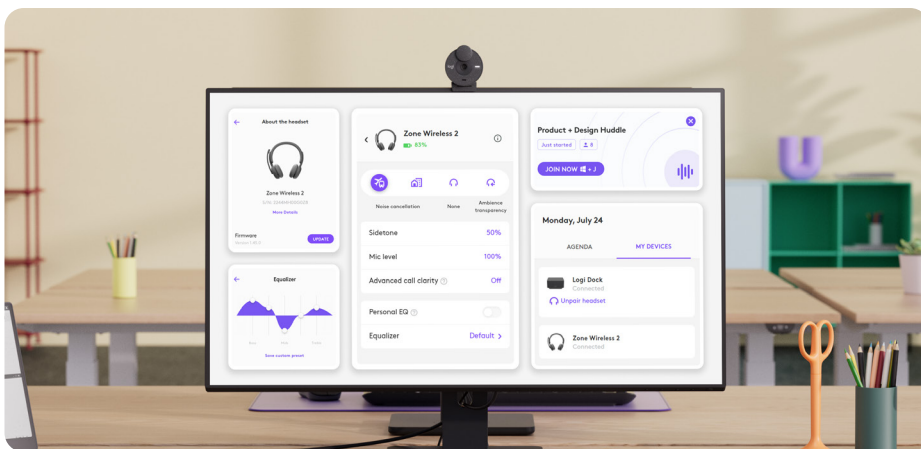

Be seen & heard

Logitech empowers next-level meeting experiences with best-in-class video and intuitive image controls. Our innovations in audio enable clearer communication even in challenging environments.

Next-level productivity, powered by software

Logi Tune, our free desktop and mobile app, brings seamless personalization across the entire desk setup, allowing employees to optimize their workflows for better productivity.

Curated solutions overview

We make it simple to provide the right tools for every employee with curated solutions that are quick to deploy and that meet your workforce's needs, whether employees are in the office, at home, or on the road.

Advanced

The Logitech Advanced solution includes premium tools with enhanced performance. Designed for power users like developers, creatives, and analysts, as well as senior management.

Core

The Logitech Core solution offers wireless and wired options to support the majority of your workforce. Equip employees with tools that increase efficiency and improve collaboration.

Ergonomic

The Logitech Ergo solution meets healthy workplace standards and promotes employee wellbeing. Made for comfort and productivity.

Value

The Logitech Value solution provides employees with plug-and-play devices that are easy to use and affordable.

Mobile

The Logitech Mobile solution gives people the ability to move fluidly between the home and office and while traveling.

Advanced solution for specialized professionals

The focus

Our Advanced solution provides specialized professionals like developers, creatives, and analysts with top-of-the-line products for enhanced performance. Deliver devices with control and precision, and with innovative features that streamline workflows so employees can achieve excellence.

- ✓ Maximize employee productivity
- ✓ Customize for specialized performance

Our solution

Boost productivity for specialized workflows with a 4K webcam, premium ANC headset, and customizable mice and keyboards for precise controls.

Alternative product spotlight: MX Keys Combo for Business | Gen 2

- ✓ Keyboard/mouse combo designed for precision, speed, and comfort
- ✓ Includes MX Palm Rest for all-day comfort

Advanced solution for executives

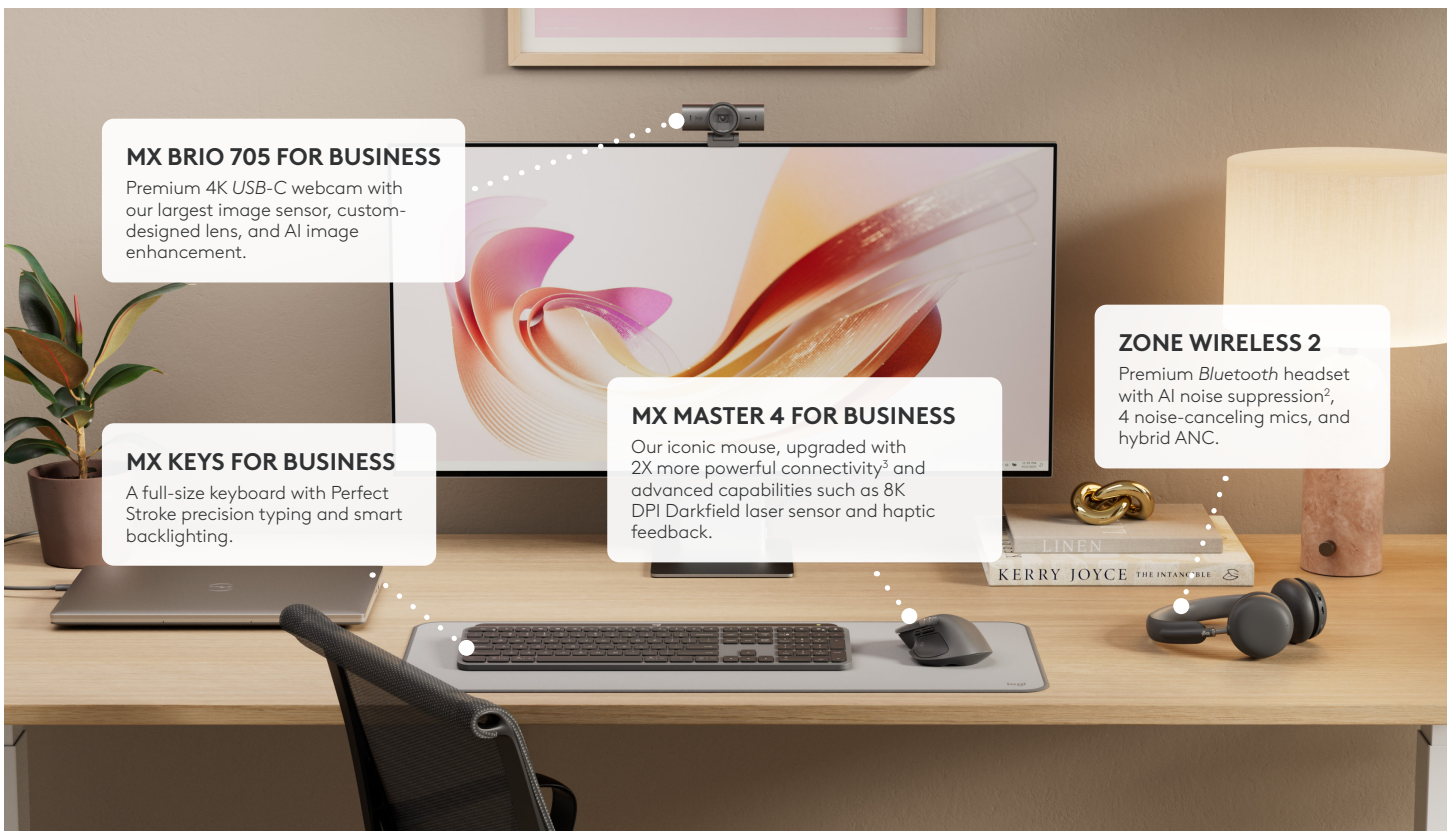

The focus

Our Advanced solution is also perfect for senior management roles including C-suite executives. Acting as the public face of the company and making major corporate decisions, they need the best tools that allow them to sharpen work focus and achieve high performance from anywhere.

- ✔ Ideal for external-facing roles
- ✔ High-quality, innovative tools

Our solution

Provide executives with a top-tier webcam, headset, mouse, and keyboard featuring advanced technology and premium materials.

Core solution for most employees

The focus

Core employees are the majority of your workforce. They include roles in marketing, finance, sales, HR, etc. Enable these professionals to work more efficiently with high-quality tools that enhance productivity and facilitate collaboration. Offered in wireless and wired options.

- ✔ A win for IT and employees
- ✔ Level up to a new standard for office productivity

Our wireless solution

Equip employees with desktop tools that meet their needs and enhance productivity, whether they prioritize comfort or prefer a slim, laptop-style typing experience. The comfortable ANC headset and HD webcam offer clear and engaging video calls.

Signature Slim Combo MK955 for Business

A wireless keyboard and mouse combo with laptop-style typing, super fast scrolling, and multi-device switching.

Signature Comfort Plus Combo MK880 for Business

A wireless keyboard and mouse combo with soft palm rest, deep-cushioned keys, and super fast scrolling.

Complete the workstation with...

Zone Wireless 2 ES for Business

A wireless headset featuring adaptive hybrid ANC⁴ and premium noise-canceling mics. Designed for open office environments.

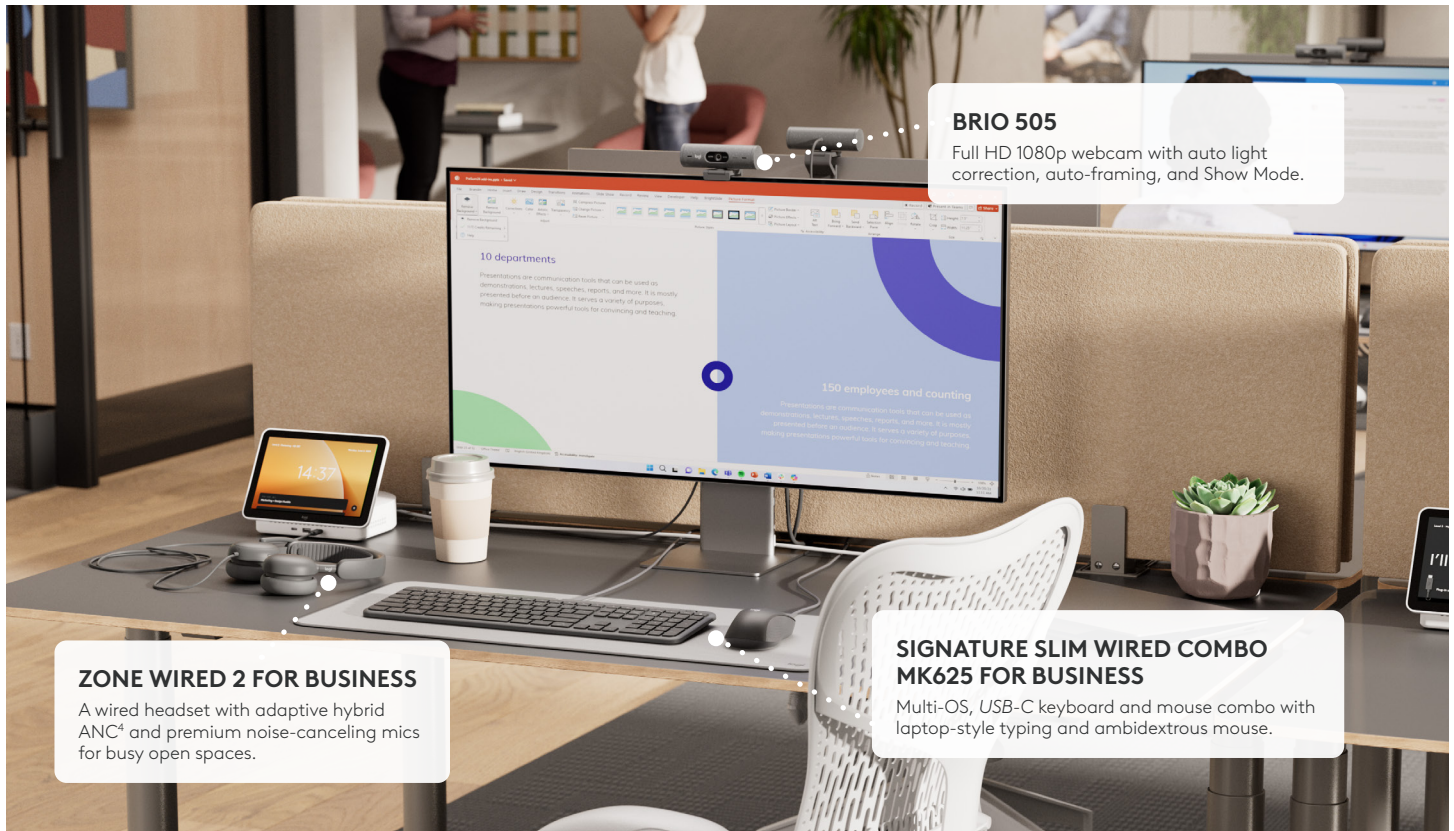

Brio 505

Full HD 1080p webcam with auto light correction, auto-framing, and Show Mode.

Our wired solution

For flexible workspace management, deploy wired desktop solutions to ensure a frictionless work experience for your workforce.

Wired solution for shared workspaces

- ✓ Secure and reliable setup
- ✓ Always ready to work
- ✓ Separate Logi USB-A to USB-C adaptor available

Ergonomic solution for health-conscious employees

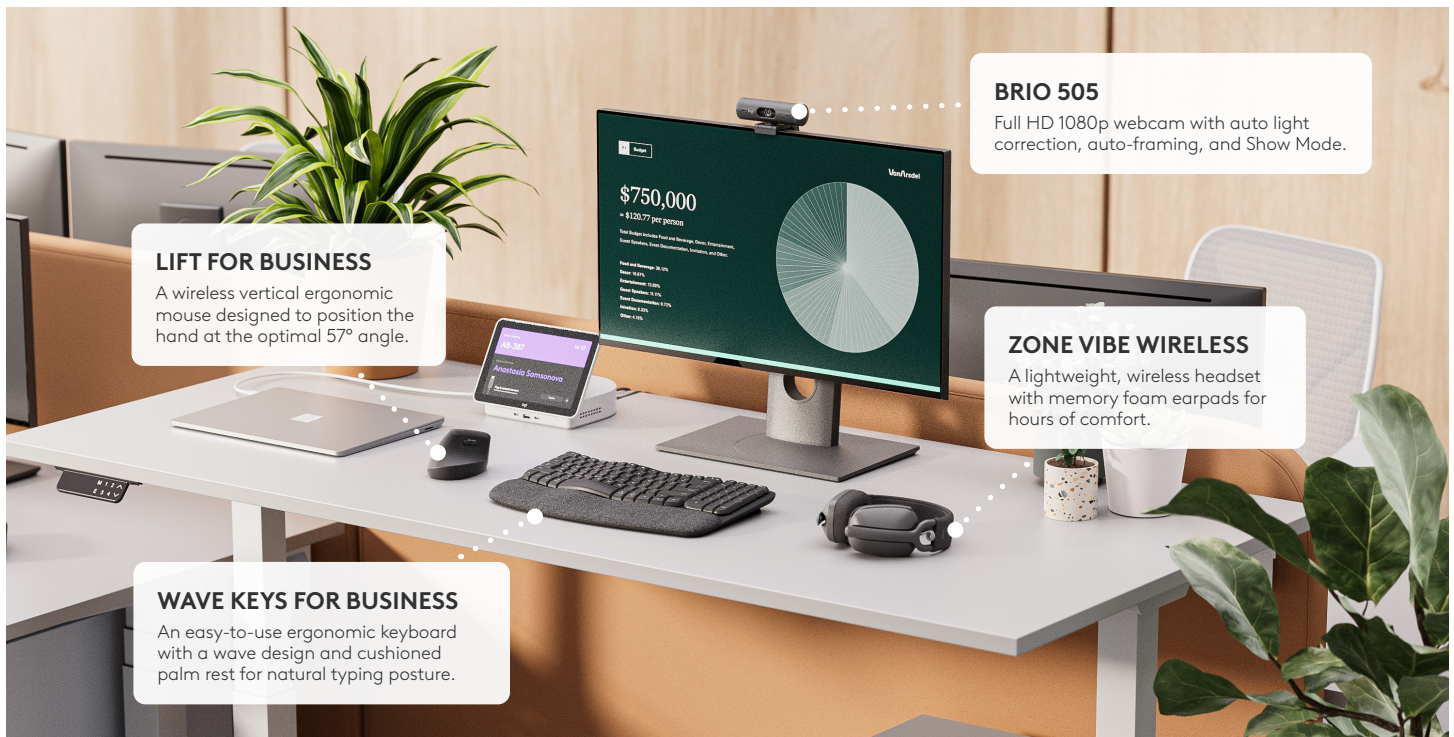

The focus

Our Ergo products are for employees who are conscious of wellbeing and seek ergonomic workspace solutions to reduce strain but want an approachable design. Team members can have the flexibility to choose tools that best meet their ergonomic needs.

- ✓ Loved by users, approved by leading ergonomists
- ✓ Promote a healthy workplace for comfort and productivity

Our solution

Offer employees an ergonomic keyboard featuring a wave design and cushioned palm rest, paired with a vertical mouse available for both left and right hands.

About Logi Ergo Lab

Logi Ergo Lab takes a human-centered and science-driven approach to designing, developing, and reinventing tools that help people feel better at work. Our ergonomic keyboards and mice are certified by US Ergonomics.

Value solution for entry-level employees

The focus

A more cost-effective option for your company. This portfolio offers devices that make tasks easier, save time, and enable operational, administrative, and contract roles to get more done with minimal learning curve. Deploy devices that are reliable, durable, and intuitive.

- ✔ Effortless to use
- ✔ Designed to perform well without all the bells and whistles

Our solution

Offer employees affordable, plug-and-play devices and simplify deployment for all departments, even those with tight budgets.

Mobile solution for on-the-go professionals

The focus

Empower employees to do their best wherever work takes them. Slim, light, and portable, Logitech mobile solutions are made to slip into bags and briefcases, go wherever employees go, and power up at a moment's notice. Employees are set free to work, learn, and create from a hotel, an airport, or a client's office.

- ✓ Lightweight, portable design built with enhanced protection
- ✓ Perfect for tablets, phones, and laptops

Our solution

Provide the right tools to deliver portability, compatibility, durability, and productivity wherever work leads.

MOBI FOLD FOR BUSINESS

A foldable, ultra-portable mouse featuring quiet clicks, adaptive touch scrolling, and intuitive navigation for on-the-go productivity.

Complete the workstation with...

Spotlight 2

A wireless presentation remote with advanced digital highlighting, haptic feedback, and a customizable action button for engaging and confident presentations.

Zone Vibe Wireless

A lightweight, wireless headset with memory foam earpads for hours of comfort.

For tablets: Rugged Folio / Combo

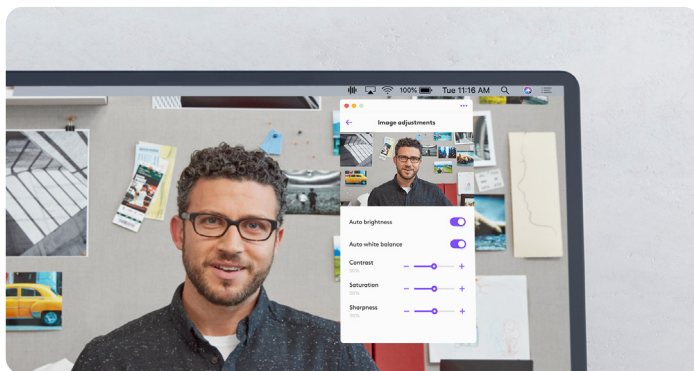

Logitech's most protective iPad keyboard case with drop protection that exceeds military standard tests.

Innovation beyond hardware

Optimize workspace solutions with software designed to enhance the employee experience and help IT manage devices.

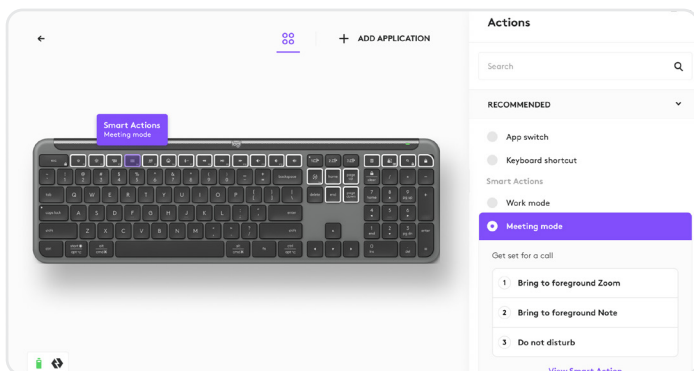

Software

Developing new and innovative software enhances Logitech products by ensuring a consistent, unified, and customizable experience across the distributed workforce.

Logi Tune

Enables customization across personal workspace devices for improved productivity and a better meeting experience. Also supports calendar integration and desk booking.

Logi Options+

Enables advanced customization like Smart Actions for Logitech mice and keyboards, allowing your team to work exactly how they want.
