One of the mega-trends in today’s IT business world is the move to cloud computing environments. Many organizations have already moved to the cloud or are considering such a migration. The cloud in its various forms offers a compelling delivery mechanism for many different types of applications, including UC in the enterprise and SMB markets.

Are you exploring how you and your customers’ businesses can leverage UC in the cloud—so you don’t miss out on what could be an excellent opportunity to add value to your and your customers’ organizations through these technologies?

End-users appreciate:
• Cloud agility
• Cloud scalability
• Cloud elasticity
• Predictable IT costs

Resellers and Service Providers benefit from:
• Offering scalable solutions at lower operating costs with fewer assets
• Recurring revenue opportunities
• Predictable profitability

SIP Trunking

CallTower is a leading provider of cloud-based communication and networking services. Its solutions enable customers to reduce capital spending and operating costs, and enhance productivity and customer care.

Intermedia can help modernize your customers phone systems by switching to flexible, scalable SIP trunks. SIP Trunking can work with existing phone systems and end-users experience no change to their calling experience. Even in the event of an outage, business continuity can be maintained by adding critical PBX features such as auto attendant, voicemail, and more – in the cloud.

LogMeIn simplifies how people interact with each other and the world around them to drive meaningful insight, deeper relationships and better outcomes. With a platform that supports tens of millions of daily users, over a billion customer interactions and 20 billion voice minutes per year, LogMeIn has helped invent the modern way of working - flexible, dispersed, mobile, efficient and productive.

Momentum Telecom understands that businesses want to get full value out of every investment and is proud to offer a solution. Momentum SIP Trunking is a business-class service designed to deliver affordable Voice over IP service with advanced telephony features to an existing PBX system.

nexVortex standard SIP Trunking provides unlimited channels, which allows customers to scale trunks on demand at no additional charge. Multi-site customers can take one service plan and scale it across all their locations with portal access to control features and functionality in real-time, including remote phone E911, DID inventory, Call Routing, Disaster Recovery and security preferences. nexVortex Managed SIP Trunking helps businesses confidently migrate to SIP while addressing quality of service, visibility, and definitive troubleshooting.

Nextiva provides cloud-based communications and collaboration solutions designed to simplify the way businesses communicate through Hosted VoIP, SIP Trunking and Netiva Anywhere™ solutions. Founded in 2006 on the principle of Amazing Service®, Nextiva serves more than 100,000 businesses in the United States.

Sangoma SIP Trunking helps customers reduce their telephony costs and deliver a higher standard of service by replacing traditional phone lines with Sangoma SIP Trunking.

Unified Communications

8x8

Six-time Gartner Magic Quadrant leader, 8x8 (EGHT), is the world’s first Communications Cloud, combining unified communications, team collaboration interoperability, contact center, and analytics in a single, open and real-time platform. 8x8 eliminates information silos to expose vital, real-time intelligence across all clouds, applications and devices to improve individual and team productivity, business performance and customer experience.
LogMeIn simplifies how people interact with each other and the world around them to drive meaningful insight, deeper relationships and better outcomes. With a platform that supports tens of millions of daily users, over a billion customer interactions and 20 billion voice minutes per year, LogMeIn has helped invent the modern way of working - flexible, dispersed, mobile, efficient and productive.

Business communications has a clear path to the cloud with Mitel's MiCloud – the business communication solution that seamlessly ties every communication application together for great efficiency, flexibility and capabilities.

Momentum Telecom is a premier provider of Unified Communications and Collaboration solutions for business. Momentum delivers a mobile, flexible and reliable HD voice and video solution seamlessly integrated with productivity applications to simplify communications and improve efficiency.

Nextiva provides cloud-based communications and collaboration solutions designed to simplify the way businesses communicate through Hosted VoIP, SIP Trunking and Netiva Anywhere™ solutions. Founded in 2006 on the principle of Amazing Service®, Nextiva serves more than 100,000 businesses in the United States.

PanTerra is the leader in delivering enterprise-level cloud services with Streams, the ultra secure, highly reliable, unified cloud service that integrates unified communications, team messaging, file sync & share and business analytics. Streams is the ideal cloud platform for mid-market enterprises.

RingCentral, Inc. is an award-winning global provider of cloud unified communications and collaboration solutions. More flexible and cost-effective than legacy on-premise systems, RingCentral solutions empower today's mobile and distributed workforces to be connected anywhere and on any device through voice, video, team messaging, collaboration, SMS, conferencing, online meetings, contact center, and fax. RingCentral provides an open platform that integrates with today's leading business apps while giving customers the flexibility to customize their own workflows.

Sangoma's Switchvox Cloud is a hosted UC solution that incorporates the same software as the on-premise appliances so that end-users have access to the same powerful UC features such as mobility, IVRs, queues, and tight integration with Sangoma phones. Switchvox Cloud provides access to a business-class phone system while completely eliminating costly capital expenditures.
