

OPTIMAL VIDEO MEETINGS. WHATEVER THE VENUE.

Konftel has video and audio products for both desktop use and conferences in large meeting rooms – from small professional cameras that you attach to the screen, to major video solutions with conference phones and expansion microphones.

As a Konftel Business Development Specialist, Jenne is 100% committed to assist with all of your conferencing needs including product selection, programs, and special price requests.

As video calls become ever longer and more important, the individual workspace needs to operate on the same level as a dedicated meeting room. Make sure you choose user-friendly equipment that also delivers a professional sense of quality and naturally flowing dialog.

EASY TO USE

Our products connect up easily via USB and are simple and straightforward to use. The camera can just be hung on your external display or on a tripod. All products are compatible with all collaborative tools, including Microsoft Teams, Zoom and Google Meet.

PRODUCTS FOR THE PERSONAL WORKPLACE

Professional webcam
Konftel Cam10

Affordable webcam for personal video meetings. Full HD, 90° field of view, 4x digital zoom and built in privacy shutter. Manage the camera settings with the Konftel Camera Control app.

For high demands
Konftel Cam20

4K camera with 123° field of view and a powerful 8x digital zoom. Perfect for both desktop video and small meeting rooms. Connects to USB and is managed with the supplied remote control.

Speak freely anywhere
Konftel Ego

Flexible and straightforward speakerphone, perfect for the desk, at home or in the office. Battery with 15 hours talk time, USB and Bluetooth® with NFC. The perfect companion wherever you are going.

More power in every word
Konftel 55Wx

Speakerphone with touch screen and HD sound. Battery with 9 hours talk time, USB, Bluetooth® with NFC and recording on SD card. Perfect for desktop up to medium sized meeting rooms.

VIDEO IN THE MEETING ROOM

Invest in solutions that can be scaled up and down in order to space out the seating in the meeting room. A BYOM solution (Bring Your Own Meeting) is the perfect choice, with no need to share devices as the users bring their own laptops along to manage the meetings. Konftel video kits are compatible with all collaborative tools, including Microsoft Teams, Zoom and Google Meet.

ONE CABLE TO GET STARTED

You would usually have to connect several cables to your laptop to get the sound, camera and screen to work. Our OCC Hub brings simplicity to the meeting room. The orange cable is all the user needs to connect to their laptop to create a complete video solution.

More meaningful conversations with Climate Neutral products

Konftel is certified in line with the Climate Neutral standard. This means that we have offset all our greenhouse gas emissions and are taking action to further reduce those emissions. When you choose a Konftel product, there is a climate benefit from the very first distance meeting that replaces a business trip.

Always innovative, always committed

Our collaboration products are designed to be world-class and we never settle for anything less. We also aim for similar standards when it comes to our levels of commitment and service. When dealing with us, you can always expect to be treated in a helpful and friendly manner. You can trust Konftel – in all your meetings.

About Konftel

Konftel is a leading company within collaboration endpoint solutions. Since 1988, our mission has been to help people in businesses around the world to have meetings regardless of distance. Crystal clear audio and a sharp video image are essential for efficient meetings, this is why we only focus on cutting-edge technology in our collaboration solutions. Our audio technology OmniSound® is built into all Konftel Conference phones and devices.
