Jenne® is your Value Added Distributor for Plantronics

Jenne, Inc., is a leading U.S. based value-added distributor of technology products and solutions focusing on unified communications and collaboration, data networking, video conferencing, premise security, the Internet of Things (IOT), and the cloud, including equipment and software for the Enterprise and SMB markets. Since the company's founding in 1986, Jenne has been dedicated to providing value added resellers, integrators and service providers with a broad product selection, competitive pricing, on-time accurate delivery, outstanding technical support plus ongoing sales and technical training through Jenne University. We are experts in Plantronics headsets.

The Jenne Team is Available to Help You

- Jenne offers same-day shipping from Jenne's on-hand, in-stock inventory on orders placed before 7 p.m. ET.
- Jenne's Plantronics Business Development team is 100% committed to assist with all of your headset needs including product selection, programs, and special price requests.
- Jenne's Inside Sales Team members are certified on the complete line of Plantronics products and are available to answer questions and to help place your order.
- Jenne's Territory Business Development Directors introduce new technology and industry best practices that contribute to a partner's business plan development and execution.
- Jenne Total One Stop Sourcing provides Value Added Resellers (VARs) with a single source for all the products they need to be successful at the total lowest cost.
- Jenne's industry-leading order fill rate is 99 percent plus.
- Jenne's on-time shipment rate is 99.89 percent.
- Jenne University offers state-of-the-art training facilities, webinar instruction and regional training across the country.

Voyager Series

Stream music, enjoy podcasts and use GPS with this Bluetooth-capable headset system. It's perfect for managing PC and mobile phone calls, and equipped with Smart Sensor technology for a seamless, intuitive experience.

Voyager 5200 UC - Be ready to take the call, wherever you're connected. The Voyager 5200 UC Bluetooth headset offers our most advanced, adaptive noise canceling with WindSmart technology to reduce disruptive noise. It's ready to work.

- Smart sensors answer calls by simply putting on the headset and transfer calls between mobile phone and headset.
- Up to 98 feet/30 meters of range from supported smartphone or laptop with BT600 USB Bluetooth adapter.
- Work seamlessly across smartphones, laptops, tablets, and Bluetooth-enabled desk phones.

Voyager Focus UC - Keep the focus on your conversation, not background noise, with on-demand active noise canceling (ANC) and immersive stereo sound of the Plantronics Voyager Focus UC stereo Bluetooth headset.

- Works seamlessly across PCs, mobile phones, tablets, Bluetooth-enabled desk phones and smart watches.
- Smart sensors answer calls by simply putting on the headset, mute by taking the headset off, and pause music for incoming calls.
- Dynamic Mute Alert senses and alerts you when you try to talk when muted.
- Rechargeable case tops off headset, adding up to 10 more hours of talk time.

Voyager 8200 UC - Wherever you work, noise can be distracting. So whether you're in an open office or on a crowded flight, taking calls or listening to music, the boomless Voyager 8200 UC Bluetooth® headset with active noise canceling lets you focus on what's important, in comfort and style.

Blackwire 5220

Public Sector

For more than 50 years, Plantronics has been the leader in communication headsets. They are proud of their government customers, from NASA to the FAA, from the military to 911 agencies.

The reason is simple: Plantronics headsets deliver clear communication, security, comfort and unmatched reliability. Wherever government employees are working worldwide – from desks and conference rooms to the most secure and critical operations centers – Plantronics has the right headset.

CA12CD

The CA12CD is a Cordless PTT headset adapter that:

- Provides DECT standard encrypted communications and push-to-talk.
- Delivers robust operation.
- Offers selectable locking/nonlocking operational modes and two charging wells.
