Jenne Security and Surveillance Linecard

Experience a Complete Security & Surveillance IP Platform Solution

Panasonic offers customizable and scalable solutions for communications, collaboration, productivity and site security that are reliable, affordable and flexible, allowing its clients to be more responsive to their customers while staying better connected to remote and mobile colleagues with a brand name end users know and trust.

As a leading manufacturer in the security industry, **Hanwha** offers video surveillance products including IP cameras, storage devices and management software founded on world-class optical design, manufacturing and image processing technologies. They offer end-to-end security solutions and have achieved global success across a wide range of industry verticals including retail, transportation, education, banking, healthcare, hospitality and airports.

VideoInsight is a leading developer of enterprise-class video management software (VMS). Video Insight was established with the vision of providing powerful, user-friendly software that runs on hardware based on IP technology.

ISONAS is the first access control company to design and manufacture a cutting-edge, IP-to-the-door solution that eliminates needless complexity. Their network-based PowerNet™ reader-controllers offer a patented technology that easily integrates with windows-based software to deliver more simplicity, greater value, and total flexibility.

Razberi Technologies offers a reliable, secure, and network-friendly video surveillance infrastructure that records the highest quality video while reducing capital, bandwidth, and space costs. Razberi ServerSwitchIQ™ appliances combine a firewall, PoE switch, server, storage and are compatible with top video management systems (VMS). Razberi CameraDefense™ software automates cybersecurity protections with camera hardening and cyber threat monitoring and Razberi VyneWatch™ health monitoring software alerts security professionals to issues 24x7.

Cameras & Lenses

The **Advidia** line of IP network video surveillance cameras provides a wide range of affordable IP camera models that are perfect for video surveillance projects of any size. Each network camera includes a 3-year warranty and FREE software updates for the life of the camera. Advidia cameras do NOT require an enterprise Video Insight Video Management Software (VMS) License.

Channel Vision is a leading manufacturer of RF video distribution products, structured wiring enclosures and modules, security cameras, and high performance audio/video distribution systems.

ImmerVision Enables is the open standard in delivering total 360° advanced immersive functionality in live and playback mode. Combined with cameras and software from leading manufacturer partners, panomorph lenses provide users with a complete view of their installations without blind spots, increasing situational awareness, and improving response time.

Moog Videolarm is recognized as the innovator of today's pressurized and bullet-resistant outdoor domes. They offer a wide assortment of cameras, illuminators, brackets, and CCTV accessories.

Panasonic offers customizable and scalable solutions for communications, collaboration, productivity and site security that are reliable, affordable and flexible, allowing its clients to be more responsive to their customers while staying better connected to remote and mobile colleagues with a brand name end users know and trust.

As a leading manufacturer in the security industry, **Hanwha** offers video surveillance products including IP cameras, storage devices and management software founded on world-class optical design, manufacturing and image processing technologies. They offer end-to-end security solutions and have achieved global success across a wide range of industry verticals including retail, transportation, education, banking, healthcare, hospitality and airports.

Verint Video Intelligence Solutions is one of the industry's leading sources of networked video solutions for virtually every part of a video security operation.

Westinghouse Security is an industry-leading security electronics manufacturer that develops the latest technology products and ensures the highest standards of quality and reliability. Their innovative surveillance equipment includes surveillance cameras, recorders, and wireless kits.

Ethernet Solutions

ADTRAN is an established supplier of advanced transmission products for connecting and integrating today's expansive networks developed to address high-speed, digital communication. Products include solutions for IP telephony/VoIP, networking equipment solutions, and enterprise wireless solutions, including delivering cloud connectivity via high-performance, secure and reliable solutions.

Altronix Corporation is a leading designer and manufacturer of low-voltage electronic components. Altronix offers a comprehensive line of Security, Fire, CCTV, Access, Nurse Call, and Automation products.

Ethernet Solutions continued

Avaya Fabric Connect provides a next generation networking solution that caters to the demands of modern IP video surveillance applications. It offers an IEEE/IETF standards-based solution that eliminates the complexity and limitations of traditional network offerings, allowing customers to realize the full potential of their video surveillance equipment. The result is unparalleled scalability, availability, and simplicity.

ComNet is a major provider of video, audio and data transmission, and network communication solutions for the security market. ComNet fiber optic video products can transmit up to 32 individual video feeds over one optical fiber plus camera control data. ComNet offers multiple models from economical AM modulated video to high quality digital video. The main benefits to video over fiber include, longer distances, immunity from EMI/RFI as well as bandwidth to transmit multiple video feeds over a single optical fiber. Lifetime warranty.

Extreme Networks is the switch partner for you if you are looking for a cost-effective solution. Extreme's broad family of switches can supply from 8 ports with PoE/PoE+ to walls of stacked, redundant switches for Las Vegas casinos. They are designed to be problem-free and let you see network stats on camera and non-camera ports so you can resolve issues before you send out a technician and truck.

Gai-Tronics is a provider of industrial, wireless one-way communication systems for alarm generation, and two-way radio communication systems for targeted intercom systems. They manufacture emergency hands-free telephone equipment and outdoor beacons.

KTI Networks is a manufacturer of a broad range of network products which include network interface cards, transceivers, media converters and switches.

Manufacturer of routers and gateways, Ethernet bridges, VoIP access points, managed and unmanaged gigabit switches, VPN firewall routers and PoE switching devices.

Phybridge switches are the only networking switches globally delivering Ethernet and PoE over a single pair with reach of 1,200 feet (Polre switch). Phybridge CLEER (Coax Leveraged Ethernet Extended Reach) is a 24 port managed Ethernet over Coax switch that transforms existing proven reliable COAX infrastructure into an IP path with power, which is ideal for IP cameras. CLEER switches are designed specifically to enable easy migration from analog to IP cameras without disrupting the data LAN. EC is a 10 port Ethernet over Coax switch designed specifically to facilitate a seamless switchover from an analog to an IP infrastructure by leveraging the existing coax cables to deliver Ethernet and PoE.

A Jenne, Inc. exclusive brand of high performance optics and connectivity solutions, Veloso offers competitive pricing and above average margin opportunities. Solutions consist of transceivers and high speed cabling for network connectivity, server connectivity, and storage arrays-fiber channel for most OEM brands. Other products available consist of NIC Cards, media converters, and multiplexers.

VMS

VideoInsight is a leading developer of enterprise-class video management software (VMS). Video Insight was established with the vision of providing powerful, user-friendly software that runs on hardware based on IP technology.

As a leading manufacturer in the security industry, Hanwha offers video surveillance products including IP cameras, storage devices and management software founded on world-class optical design, manufacturing and image processing technologies. They offer end-to-end security solutions and have achieved global success across a wide range of industry verticals including retail, transportation, education, banking, healthcare, hospitality and airports.

Surveillance Platform Servers

Razberi Technologies offers a reliable, secure, and network-friendly video surveillance infrastructure that records the highest quality video while reducing capital, bandwidth, and space costs. Razberi ServerSwitchIQ™ appliances combine a firewall, PoE switch, server, storage and are compatible with top video management systems (VMS). Razberi CameraDefense™ software automates cybersecurity protections with camera hardening and cyber threat monitoring and Razberi VyneWatch™ health monitoring software alerts security professionals to issues 24x7.

Seneca is the leading US manufacturer of computing technology for physical security and surveillance solutions. The Seneca security product line combines their IP expertise and solution partnerships with certified network video recorders, viewing stations, and storage platforms. Their range of security systems have been custom configured for leading video management software packages to ensure maximum performance and compatibility.

VideoInsight is a leading developer of enterprise-class video management software (VMS). Video Insight was established with the vision of providing powerful, user-friendly software that runs on hardware based on IP technology.

Infrared Illumination

AXTON is a manufacturer of professional infrared illuminators and white light. They are dedicated to simplifying illumination solutions for CCTV professionals, incorporating rapidly developing technologies, and concepts into their products.

OPTEX is a manufacturer of passive and active infrared technology, control systems, and CCTV products which are applied in the fields of security, automatic door controls, and factory automation.

Raytec Systems is a world leader in LED lighting, manufacturing a complete range of Infrared and White-Light LED illuminators for CCTV and Safety Critical applications. Raytec delivers outstanding performance together with low costs of ownership and maintenance.

Situational Awareness & Monitoring

Status Solutions provides situational awareness technologies for life safety, security and environmental monitoring and mass notification. Their customized software solutions deliver real-time, detailed alerts about potential threats to life, property, business, and convenience that help customers not only prevent ignorance-based loss but also transform the way they do business.

Founded in 1985, Accutech is a leading manufacturer of advanced electronic monitoring and security systems. Its products are marketed under the ResidentGuard, Cuddles and Kidz brands and are sold nationwide. Accutech's specialized, RFID-enabled systems track the movement of people to provide immediate notification if an individual leaves a designated area. Their solutions are used across a variety of industries to support the overall security of facilities.

Situational Awareness & Monitoring continued

VERINT — Verint Video Intelligence Solutions is one of the industry's leading sources of networked video solutions for virtually every part of a video security operation.

Paging Solutions

ALGO — Algo manufactures SIP Endpoints for voice paging, visual and audible alerting, customer assistance, and entrance security. Algo is a trusted supplier to organizations looking for dependability, proven compatibility, and ease of deployment.

Monitors

ViewZ — ViewZ is a reputable OEM manufacturer of Professional-Grade LCD and LED monitors. Each ViewZ monitor is designed and built with superior components and durable materials which stand up to the harsh environment elements of non-stop, around the clock use in security, digital signage, and pro video production applications.

Panasonic — Panasonic offers customizable and scalable solutions for communications, collaboration, productivity and site security that are reliable, affordable and flexible, allowing its clients to be more responsive to their customers while staying better connected to remote and mobile colleagues with a brand name end users know and trust.

LG — LG Electronics has led the way into the advanced digital era thanks to the technological expertise it has acquired manufacturing appliances since 1958. LG continues to pursue its 21st century vision of becoming a worldwide leader in digital—ensuring customer satisfaction through innovative products and superior service.

Hanwha Techwin America — As a leading manufacturer in the security industry, Hanwha offers video surveillance products including IP cameras, storage devices and management software founded on world-class optical design, manufacturing and image processing technologies. They offer end-to-end security solutions and have achieved global success across a wide range of industry verticals including retail, transportation, education, banking, healthcare, hospitality and airports.

Access Controls

comnet Communication Networks — ComNet is a major provider of video, audio and data transmission, and network communication solutions for the security market. ComNet fiber optic video products can transmit up to 32 individual video feeds over one optical fiber plus camera control data. ComNet offers multiple models from economical AM modulated video to high quality digital video. The main benefits to video over fiber include, longer distances, immunity from EMI/RFI as well as bandwidth to transmit multiple video feeds over a single optical fiber. Lifetime warranty.
ISONAS PURE IP ACCESS CONTROL — ISONAS is the first access control company to design and manufacture a cutting-edge, IP-to-the-door solution that eliminates needless complexity. Their network-based PowerNet™ reader-controllers offer a patented technology that easily integrates with windows-based software to deliver more simplicity, greater value, and total flexibility.

Westinghouse — Westinghouse Security is an industry-leading security electronics manufacturer that develops the latest technology products and ensures the highest standards of quality and reliability. The innovative RTS series of access control locks present optimal security solutions delivering exceptional flexibility and multi-modal PIN code, biometric fingerprint and mechanical key access. Made in the USA.

Installation Supplies & Accessories

Altronix — Altronix Corporation is a leading designer and manufacturer of low-voltage electronic components. Altronix offers a comprehensive line of Security, Fire, CCTV, Access, Nurse Call, and Automation products.

CHANNEL VISION — Channel Vision is a leading manufacturer of RF video distribution products, structured wiring enclosures and modules, security cameras, and high performance audio/video distribution systems.

DITEK Surge Protection — DITEK Corporation has been the industry leader in the design and manufacturing of surge protection devices and systems for more than 20 years. DITEK provides total surge solutions for low voltage CCTV, Fire and Intrusion, Access Control, and Voice/Data/Signal applications, including VoIP and PoE. They also offer a complete line of hardwired suppressors and arrestors for main and distribution panels, as well as point of use equipment.

EATON — An established leader of the fire and life safety notification and voice evacuation systems industry, Eaton's Cooper Notification business offers a full line of mass notification solutions applicable but not limited to the retail, government, military, industrial and education sectors.

HITACHI Inspire the Next — Hitachi Cable Manchester, Inc. is a manufacturer of copper premise cable, fiber optic cable, electronic round cable, electronic ribbon cable and custom cable.

Honeywell — Honeywell's Genesis Series provides a full range of cables for security, fire, sound, video, structured cabling, voice and data, and other low voltage applications.

Middle Atlantic Products — Middle Atlantic Products is a manufacturer of rack enclosures, monitoring consoles, data cabling management products, audio and video studio furniture, power distribution products, and related accessories.

Southwire — Southwire is a designer and implementer of a revolutionary computer telephony integration system for the Panasonic Digital Hybrid phone systems.

VIKING Security & Communication Solutions — Viking Security and Communication Solutions produce more that 250 telecommunications and security related products primarily for small businesses. The majority of their products are 'problem solvers', designed to fix or add unique features to another manufacturers' telephone or security systems.

Jenne is a national Value-Added Distributor (VAD) of technology products and solutions focused on security, voice, video, data networking and the cloud, including equipment and software for the enterprise and SMB markets. The company is headquartered near Cleveland, Ohio and has been in business since 1986. We are experts in Security and Surveillance products and solutions, and have a designated security team to assist with pre- and post-sales.

The Jenne Team is Available to Help You
• Complete IP solutions to fit your customers' needs.
• Network support to ensure functionality for you and your customers.
• Equipment staging and configuration—we configure IP addresses, update firmware, populate spreadsheets.
• Quote and order assistance to ensure the correct equipment is on hand for projects.
• System design assistance with RFP, camera selection, infrastructure selection.
• Nationwide education events for system design, configuration and operation.

Interested in Growing Your Security Business with Jenne?

Call Jenne at **1-800-422-6191**, or email **security@jenne.com** to have our security team contact you with more information on Jenne's security and surveillance solutions.
