Cloud Solutions (Continued)

PanTerra Networks is a unified cloud service provider, delivering WorldSmart, its family of secure, ultra-reliable, future-proof solutions for SMB and Mid-market enterprises. WorldSmart includes CloudUC, a complete unified communications and collaboration service. WorldSmart also includes SmartBox, the world’s first communications-enabled file sync and share service.

Vault America is a leading provider of cloud-based storage specializing in data backup, recovery, and archiving solutions. From small businesses to multinational enterprises and designed for channel partners, customers use Vault America’s cloud storage services to solve their data protection, retention and business continuity challenges. Vault America delivers enterprise-grade performance and reliability without enterprise-level complexity and cost. Vault America’s cloud services provide storage efficiencies by minimizing risk and protecting prior investments.

Vidyo is changing the way people connect. They have moved the business model for video conferencing beyond expensive legacy hardware and dedicated networks to provide a powerful, flexible and scalable software-based solution that is also affordable. Easy to use and manage, Vidyo’s technology innovations put HD-quality, multipoint video communications within reach of anyone using any device, anywhere.

Network Infrastructure Solutions

ADTRAN is an established supplier of advanced transmission products for connecting and integrating today’s expansive telecommunications networks developed to address high-speed, digital communication. Products include solutions for IP telephony/VoIP, networking equipment solutions, enterprise wireless solutions, including delivering cloud connectivity via high-performance, secure and reliable solutions.

ComNet is a USA-based company with the key functions of product development, engineering, manufacturing, customer care and tech support. ComNet offers a host of Ethernet switches and media converters as well as video, data and Ethernet optic transmission products. ComNet supports its products to the highest level, offering unparalleled customer care.

Edgewater Networks is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises of all sizes use Edgewater Networks solutions to simplify customer premise configurations for quick and smooth installations, reduce time to market and deliver rapid return on invested capital. The company helps customers deliver intelligence at the network edge with its Network Edge Orchestration platform that includes Intelligent Edge ESBCs and QuickConnect certification program, and the Edgewarrior Service Control Center.

Engenius offers products designed for the SME market providing long-range wireless communications solutions in demanding business environments, including indoor/outdoor wireless LAN products, client bridge access points and routers.

KTI Networks is a manufacturer of a broad range of network products which include network interface cards, transceivers, media converters and switches.

Multi-link is a manufacturer dedicated to the development and marketing of high quality telecommunications devices, including remote power management and fax phone switch devices, for a wide variety of commercial and government applications.

NETGEAR is a manufacturer of routers and gateways, Ethernet bridges, VoIP access points, managed and unmanaged gigabit switches, VPN firewall routers and PoE switching devices.

Veloso is a Jenne, Inc. exclusive brand of High Performance Optics and Connectivity Solutions, offering competitive pricing and above average margin opportunities. Solutions consist of transceivers and high speed cabling for Network connectivity, Server connectivity, and Storage Arrays-Fiber channel for most OEM brands. Other products available consist of NIC Cards, Media Converters, and Multiplexers.

Zyxel is a supplier of broadband access and networking solutions for service providers, business and residential customers. Their enterprise-class product line includes security appliances, managed smart switches, wireless access points and VoIP solutions.

Oberon is a leading designer and producer of in-building enclosures and antenna products for cabling, wireless voice and data network infrastructure products.

Wireless Solutions

Avaya is a global leader in business communications systems. The company provides unified communications, contact centers, networking and related services directly and through its channel partners to leading businesses and organizations around the world.

ADTRAN is an established supplier of advanced transmission products for connecting and integrating today’s expansive telecommunications networks developed to address high-speed, digital communication. Products include solutions for IP telephony/VoIP, networking equipment solutions, enterprise wireless solutions, including delivering cloud connectivity via high-performance, secure and reliable solutions.

Extreme Networks delivers software-driven networking solutions that help IT departments everywhere deliver the ultimate business outcome: stronger connections with customers, partners, and employees.

Engenius offers products designed for the SME market providing long-range wireless communications solutions in demanding business environments, including indoor/outdoor wireless LAN products, client bridge access points and routers.

NETGEAR is a manufacturer of routers and gateways, Ethernet bridges, VoIP access points, managed and unmanaged gigabit switches, VPN firewall routers and PoE switching devices.

Oberon is a leading designer and producer of in-building enclosures and antenna products for cabling, wireless voice and data network infrastructure products.

Audio and Video Conferencing Solutions

Avaya is a global leader in business communications systems. The company provides unified communications, contact centers, networking and related services directly and through its channel partners to leading businesses and organizations around the world.

CAD Audio is a developer of paging and radio microphones, stands and accessories for the professional, commercial and installation audio industries.

ClearOne is a global company that designs, develops and sells conferencing, collaboration, streaming and digital signage solutions for voice and visual communications. The performance and simplicity of its advanced comprehensive solutions offer unprecedented levels of functionality, reliability and scalability.
Audio and Video Conferencing Solutions (Continued)

HuddleCamHD is a U.S-based company operating from Downingtown, Pennsylvania that manufactures USB connected conference cameras and speakerphones. Offering both wireless and wired USB webcams, HuddleCamHD is most known for its affordable USB cameras with pan, tilt, and optical zoom capabilities.

Konftel is a global provider of high-quality analog, wireless and IP-based audio conferencing phones. They are well known for their patented audio technology, OmniSound®.

Kramer has been on the leading edge of Pro AV innovation for over 35 years. With hundreds of employees and partners serving thousands of customers across six continents, we remain committed to delivering smart technology products and solutions for a wide variety of markets and applications.

Lifesize connects organization with award-winning conferencing technology that covers web, audio and video conferencing. Lifesize offers this experience through a unique integration of plug-and-play HD camera systems and HD phones and easy-to-use cloud-based conferencing software.

LG Electronics has led the way into the advanced digital era thanks to the technological expertise it has acquired manufacturing appliances since 1958. LG continues to pursue its 21st century vision of becoming a worldwide leader in digital—ensuring customer satisfaction through innovative products and superior service.

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech’s combined hardware and software enables or enhances audio and video communication over the internet.

Polycom is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for voice and video collaboration, trusted by more than 415,000 customers around the world.

PTZOptics is a U.S-based company operating from Downingtown, Pennsylvania that manufactures PTZ broadcast conference cameras. PTZOptics cameras offer a wide variety of connectivity options including: HD-SDI, HDMI, USB 3.0 and IP Streaming.

Vidyo is changing the way people connect. They have moved the business model for video conferencing beyond expensive legacy hardware and dedicated networks to provide a powerful, flexible and scalable software-based solution that is also affordable. Easy to use and manage, Vidyo™ technology innovations put HD-quality, multipoint video communications within reach of anyone using any device, anywhere.

ViewZ is a reputable OEM manufacturer of Professional-Grade LCD and LED monitors. Each ViewZ monitor is designed and built with superior components and durable materials which stand up to the harsh environment of non-stop, around the clock in security, digital signage, gaming and pro A/V applications.

Vtech is the #1 manufacturer of cordless phones in the world. Vtech has translated its success in cordless telephony to create a portfolio of DECT 6.0 business phone solutions, including the ErisStation® Conference Phone with Wireless Mics and the ErisTerminal™ SIP phones.

Yealink is a leading provider of video conferencing solutions. Yealink offers a comprehensive range of high-quality USB, IP and wireless video conferencing solutions that makes it possible to transform the ordinary computer into a feature-rich communications server.

Digium, Inc. provides Asterisk® software, telephony hardware and Switchvox business phone systems that deliver enterprise-class unified communications. Digium is the creator, primary developer and sponsor of the Asterisk project, the world’s most widely used open source communications software, which turns an ordinary computer into a feature-rich communications server.

Engenius offers products designed for the SME market providing long-range wireless communications solutions in demanding business environments, including indoor/outdoor wireless LAN products, clients bridge access points and routers.

Panasonic is a global leader in business communications, with over 30 years of experience manufacturing communications products and over 100 million phones produced to date.

Polycom is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for voice and video collaboration, trusted by more than 415,000 customers around the world.

Audio and Video Conferencing Furniture

AVTEQ designs and manufactures video conferencing mobile stands and consoles with a new dimension to meet the demands of current technology.

Chief offers mounting solutions designed to support a wide range of audio/video applications from corporate boardrooms and facilities to home theaters and offices.

Heckler is a Made-in-the USA product design company that creates beautifully simple, commercial-grade products for design conscious consumers and businesses. Jenne will distribute Heckler Design’s Meeting Room Mount for Conference Rooms, as well as Wall Mount enclosures, the Heckler AV cart, and other visual communication hardware.

ViewZ is a reputable OEM manufacturer of Professional-Grade LCD and LED monitors. Each ViewZ monitor is designed and built with superior components and durable materials which stand up to the harsh environment of non-stop, around the clock in security, digital signage, gaming and pro A/V applications.

Middle Atlantic Products is a manufacturer of rack enclosures, monitoring consoles, data cabling management products, audio and video studio furniture, power distribution products and related accessories.

VPI is a leader in the video conference and A/V furniture market. They provide excellent products and services at competitive prices.

Business Telephones

Avaya is a global leader in business communications systems. The company provides unified communications, contact centers, networking and related services directly and through its channel partners to leading businesses and organizations around the world.

Mitel has the industry's broadest portfolio of business phone systems, collaboration, SIP phones and contact center solutions that power more than 2 billion connections every day, including over 33 million daily cloud connections.

Cetis was formed from the three popular telephone brands of Scitec, TeleMatrix, and Teledex. They design and manufacture a broad range of analog, VoIP, and Digital Centrex telephone and high-speed Internet products.

Cortelco is a provider of a complete line of single-line telephones, two-line telephones and cordless telephones.

Digium, Inc. provides Asterisk® software, telephony hardware and Switchvox business phone systems that deliver enterprise-class unified communications. Digium is the creator, primary developer and sponsor of the Asterisk project, the world’s most widely used open source communications software, which turns an ordinary computer into a feature-rich communications server.

Engenius offers products designed for the SME market providing long-range wireless communications solutions in demanding business environments, including indoor/outdoor wireless LAN products, client bridge access points and routers.

Panasonic is a global leader in business communications, with over 30 years of experience manufacturing communications products and over 100 million phones produced to date.

Polycom is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for voice and video collaboration, trusted by more than 415,000 customers around the world.
Telefield is a leading designer and manufacturer of telecommunications products for SMBs in North and South America. Telefield's expandable VoIP systems provide a perfect long term solution for any business.

Spectranlink, a global leader in wireless solutions, solves the everyday problems of mobile workers through technology, innovation and integration. By continually listening to customers on the move through their workdays, Spectranlink is able to develop and deliver reliable, enterprise-grade voice and data solutions.

Vtech is the #1 manufacturer of cordless phones in the world. Vtech has translated its success in cordless telephony to create a portfolio of DECT 6.0 business phone solutions, including the ErisStation® Conference Phone with Wireless Mics and the ErisTerminal™ SIP phones.

Yealink is a manufacturer of high-quality VoIP telephone products that are easy-to-install, easy-to-use, high performing, reliable and have a typically higher margin yield.

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech's combined hardware and software enables or enhances audio and video communication over the internet.

Plantronics offers one of the industry’s most complete families of corded and wireless products for unified communications. Plantronics’ audio solutions help companies extend the benefits of IP communications throughout the extended enterprise, fostering better communication regardless of where professionals are working.

Sennheiser is a provider of headsets and headset accessories for call center, consumer, wireless, mobile, USB, Bluetooth™ and VoIP.

Algo is a trusted supplier and partner in telecommunications, with millions of IP endpoints, including PoE speakers, horns, paging adapters, strobes, push buttons, doorphone/intercoms, and specialty handsets, shipped globally.

Avaya is a global leader in business communications systems. The company provides unified communications, contact centers, networking and related services directly and through its channel partners to leading businesses and organizations around the world.

Eaton is an established leader of the fire and life safety notification and voice evacuation systems industry. Eaton’s Cooper Notification business offers a full line of mass notification solutions applicable but not limited to the retail, government, military, industrial and education sectors.

Valcom is a provider of page control interfaces, VoIP LAN/WAN connectivity, ceiling/wall speakers, paging horns, Privacy Spot sound masking, power supplies and door entry systems.

Viking is a provider of telephone accessories, entry controllers and door boxes, apartment entry systems, elevator access and communication devices, industrial paging and telephony control devices.

Brother is a globally-recognized product line of award-winning printers and Multi-Function Center® all-in-ones, the CES and CHA Award-winning ScanNCut, the market-leading P-touch® electronic labeling line, OmniJoin™ web and video conferencing, document management solutions, industrial and home sewing equipment, and the number one line of facsimile machines in the United States.

Pentair, formerly Erico, services the communications market with cable support systems and faceplate brackets for Category 3 voice networks, as well as for high-speed Category 5e and 6 cabling infrastructures, components and accessories.

Fluke Networks is a provider of Category 5e and 6 test equipment, telephone DSL/ISDN test equipment and telecom tools.

Garvin is a manufacturer of quality electrical, datacom and telecom hardware.

Greenlee is a provider of quality tools to the electrical industries.

Hubbell Premise Wiring is a global manufacturer of structured cabling systems, enclosures and accessories, providing intelligent infrastructure solutions.

ICC is a performance-value leader in network connectivity and cable management including: workstations, fiber optic systems and outlets, racks and cable management and raceway systems.

Algo is a trusted supplier and partner in telecommunications, with millions of IP endpoints, including PoE speakers, horns, paging adapters, strobes, push buttons, doorphone/intercoms, and specialty handsets, shipped globally.

Ideal is a provider of products that range from wire connectors, benders, lubes and fish tape to sophisticated electrical testers, datacomm equipment and ergonomically designed hand tools.

Middle Atlantic is a manufacturer of rack enclosures, monitoring consoles, data cabling management products, audio and video studio furniture, power distribution products and related accessories.

Oberon is a leading designer and producer of in-building enclosures and antenna products for cabling, wireless voice and data network infrastructure products.

Panasonic is a global leader in business communications, with over 30 years of experience manufacturing communications products and over 100 million phones produced to date.

Suttle is a leading manufacturer of communication connectivity products to major service providers and installers.

Viking is a provider of telephone accessories, entry controllers and door boxes, apartment entry systems, elevator access and communication devices, industrial paging and telephony control devices.

3M is a designer and developer of telecommunications connectivity and adhesive products for the electrical marketplace.
Power Protection/UPS

APC is a manufacturer of network-critical physical infrastructure (NCPI) solutions, designed for both home and corporate environments of all sizes.

DITEK Corporation has been the industry leader in the design and manufacturing of surge protection devices and systems for more than 20 years. DITEK provides total surge solutions for low voltage CCTV, Fire and Intrusion, Access Control, and Voice/Data/Signal applications, including VoIP and PoE. They also offer a complete line of hardwired suppressors and arrestors for main and distribution panels, as well as point of use equipment.

ITW Linx is a provider of a full line of lightning and surge protection products covering the breadth of the AC, telecom and datacom markets – from rack mount solutions to pair-by-pair block protectors.

Minuteman Power Technologies is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices (UPS products are available from 325VA to 10KVA).

Tripp-Lite is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices for both individual station or network systems.

Xtreme Power Conversion® designs, produces and delivers power quality and data center solutions with UPS and power distribution equipment that solves real-world customer problems while providing one of the best cost-to-performance ratios in the industry.

Call Accounting

CI is a developer of Interactive Voice Response (IVR), Computer Telephony Integration (CTI), Web-IVR integration and voicemail unified messaging into vertical and general business solutions.

DATEL Software Solutions, LLC creates innovative, user-friendly, contact center and call accounting solutions at an affordable price. DATEL has displaced many traditional reporting packages and carved out a niche in the telecommunications software industry.

DuVoice is a developer of stand-alone voicemail systems, messaging system software and turnkey systems for general business office environment and the hotel/motel industry.

DVS Analytics is a provider of agent productivity and analytics solutions for enterprises and contact centers. Encore brings together voice and screen recording, quality monitoring, performance management, coaching and reporting into a unified solution for analyzing customer interactions, capturing business intelligence and enhancing the customer experience.

PanaLog is a call management/cost accounting software program that connects to Panasonic telephone systems through your computer.

Trisys is a designer of employee productivity and resource software that lets management clearly identify how employees utilize their time for business and non-business purposes.

Message on Hold

IntelliTouch is a market leader in innovating and producing cost-effective, high-quality hardware and software-based telecommunications solutions that can be used by any business.

PICA Product Develpment, formerly known as Nel-Tech Labs is a USA manufacturer of audio messaging systems. These devices provide solutions for various applications including: Music and Message On Hold, Business Music and Timed/Triggered Messaging.

Software/Add-ons

Extreme Networks delivers software-driven networking solutions that help IT departments everywhere deliver the ultimate business outcome: stronger connections with customers, partners, and employees.

DATEL Software Solutions, LLC creates innovative, user-friendly, contact center and call accounting solutions at an affordable price. DATEL has displaced many traditional reporting packages and carved out a niche in the telecommunications software industry.

CI is a developer of Interactive Voice Response (IVR), Computer Telephony Integration (CTI), Web-IVR integration and voicemail unified messaging into vertical and general business solutions.

Calero offers a wide range of Communications Lifecycle Management (CLM) solutions designed to turn communications data into actionable insight by simplifying the management of voice, mobile and other unified communications (UC) services and assets.

DuVoice is a developer of stand-alone voicemail systems, messaging system software and turnkey systems for general business office environment and the hotel/motel industry.

DVS Analytics is a provider of agent productivity and analytics solutions for enterprises and contact centers. Encore brings together voice and screen recording, quality monitoring, performance management, coaching and reporting into a unified solution for analyzing customer interactions, capturing business intelligence and enhancing the customer experience.

Status Solutions provides situational awareness solutions with expertise in vertical markets such as senior housing, healthcare, education and government.

Konexx is a leader in the field of telephony products with a line of digital voice recorders and telephone recording software packages designed to function with various platforms from analog to digital.

Mutare is an independent software developer driven by a passion to make information access easier. Mutare writes software solutions to unify communications specializing in messaging, mobile apps, self-service IVR and notification systems.

PanaLog is a call management/cost accounting software program that connects to Panasonic telephone systems through your computer.

Polty's is a global provider of unified communication solutions and communication applications development services.

Trisys is a designer of employee productivity and resource software that lets management clearly identify how employees utilize their time for business and non-business purposes.

West Safety Services, formerly 911 ETC, helps organizations meet legislation requirements and protect their people in the event of a 9-1-1 emergency. West Safety Services manages exclusive or hybrid E911 solutions for analog, digital, IP, SIP and wireless phones for organizations of all types and sizes.

Security Surveillance Solutions

Accutech's specialized, RFID-enabled systems track the movement of people to provide immediate notification if an individual leaves a designated area. Their solutions are used across a variety of industries to support the overall security of facilities.

The Avidia line of IP network video surveillance cameras provides a wide range of affordable IP camera models that are perfect for video surveillance projects of any size. Each network camera includes a 3-year warranty and FREE software updates for the life of the camera. Avidia cameras do NOT require an enterprise Video Insight Video Management Software (VMS) License.

Altronix Corporation is a leading designer and manufacturer of low voltage electronic components. Altronix offers a comprehensive line of security, fire, CCTV, access, nurse call and automation products.

Avaya Fabric Connect provides a next generation networking solution that caters to the demands of modern IP video surveillance applications. It offers an IEEE/ETF standards-based solution that eliminates the complexity and limitations of traditional network offerings, allowing customers to realize the full potential of their video surveillance equipment. The result is unparalleled scalability, availability, and simplicity.

Algo is a trusted supplier and partner in telecommunications, with millions of endpoints shipped globally. Algo designs, manufactures and supports its products at its headquarters in Burnaby, British Columbia, Canada.

AXTON is a manufacturer of professional infrared illuminators and white light. They are dedicated to simplifying illumination solutions for CCTV professionals, incorporating rapidly developing technologies and concepts into their products.

Channel Vision is a leading manufacturer of RF video distribution products, structured wiring enclosures and modules, security cameras and high performance audio/video distribution systems.

Clear2There is an innovative, full-service provider of feature-rich video surveillance, communications, and M2M solutions for businesses. Clear2there works with national distribution partners and offers a team of dedicated support staff to assist in all phases of implementation.

ComNet is a manufacturer of precision-engineered analog and digital fiber optic transmission and Ethernet networking products designed to withstand the rigors of harsh and difficult industrial applications.

Hanwha Techwin's line of security cameras deliver extraordinary capabilities in both image quality and day-to-day performance. They offer the industry’s most comprehensive selection of analog and network cameras, including those marketed under the Wisenet name.

ImmerVision Enables is the open standard in delivering total 360° advanced immersive functionality in live and playback mode. Combined with cameras and software from leading manufacturer partners, panomorph lenses provide users with a complete view of their installations without blind spots, increasing situational awareness and improving response time.

IronYun is a next generation cloud computing and big data video search software company. They provide enterprise customers with Hyper-Converged, All-in-One, private cloud computing and big data software products.

ISONAS is the first access control company to design and manufacture a cutting-edge, IP-to-the-door solution that eliminates needless complexity. Their network-based PowerNet ™ reader-controllers offer a patented technology that easily integrates with Windows-based software to deliver more simplicity, greater value, and total flexibility to go places you never thought possible.

Moog Videolarm is recognized as the innovator of today’s pressurized and bullet-resistant outdoor domes. They offer a wide assortment of cameras, illuminators, brackets and CCTV accessories.

OnSSI’s Ocularis IP security and surveillance VMS platform increases security, reduces operational costs, and helps organizations move closer to prevention.

Panasonic is a manufacturer of passive and active infrared technology, control systems and CCTV products which are applied in the fields of security, automatic door controls and factory automation.

Optex is a manufacturer of passive and active infrared technology, control systems and CCTV products which are applied in the fields of security, automatic door controls and factory automation.

NVT Phybridge is the leader in long reach PoE, making IP connections in far places simple. Their CHARiOT series of long reach switches helps their customers migrate to an IP-based network, transforming the existing or new infrastructure into an IP path with power.

Raytec Systems is a world leader in LED lighting, manufacturing a complete range of Infrared and White-Light LED Illuminators for CCTV and Safety Critical applications. Raytec delivers outstanding performance together with low costs of ownership and maintenance.

Razberi Technologies offers a reliable, secure, and network-friendly video surveillance infrastructure that records the highest quality video while reducing capital, bandwidth, and space costs. Razberi ServerSwitchIQ™ appliances combine a firewall, PoE switch, server, storage and are compatible with top video management systems (VMS).
