Internet of Things

Accutech’s specialized, RFID-enabled systems track the movement of people to provide immediate notification if an individual leaves a designated area. Their solutions are used across a variety of industries to support the overall security of facilities.

MultiTech is a global manufacturer of award-winning external and embedded modems, and unified communications products that connect data over cellular and analog networks from anywhere in the world.

Razberi Technologies offers a reliable, secure, and network-friendly video surveillance infrastructure that records the highest quality video while reducing capital, bandwidth, and space costs. Razberi ServerSwitchIQ™ appliances combine a firewall, PoE switch, server, storage and are compatible with top video management systems (VMS). Razberi CameraDefense™ software automates cybersecurity protections with camera hardening and cyber threat monitoring and Razberi VyneWatch™ health monitoring software alerts security professionals to issues 24x7.

Status Solutions provides situational awareness solutions with expertise in vertical markets such as senior housing, healthcare, education and government.

SIP Trunking

Appia provides SIP DID packages with no concurrent call limits. End-customers never hear a busy signal and staff always have a open line without adding new lines or equipment.

Digium SIP Trunking offers the ability to provide an end-to-end solution under one support umbrella. From the dollar savings of SIP trunks, to the powerful UC benefits of Switchvox, to the high quality and feature-rich Digium IP Phones.

Jive SIP Trunks offer advanced features and an intelligent, carrier-grade IP network. Jive SIP Trunks are flexible enough to fit any requirements and budget.

Momentum Telecom’s SIP Trunking can help extend the life and utility of a telephone switch by facilitating the connection of remote offices to a PBX, creating virtual call centers, setting up disaster recovery and unleashing the latest collaborative capabilities that are essential to staying competitive in today’s challenging business environment.

NextVortex’s SIP Trunking enables businesses with high-quality voice service and includes features such as scalability-on-demand, multi-location deployment, local E911, and auto-detecting disaster recovery.

Nextiva’s SIP Trunking allows phone calls from the current phone system without costly equipment investments. Missed calls never happen and disaster recovery is covered.

Data Networking and Storage Solutions

ADTRAN is an established supplier of advanced transmission products for connecting and integrating today’s expansive telecommunications networks developed to address high-speed, digital communication. Products include solutions for IP telephony/VoIP, networking equipment solutions, enterprise wireless solutions, including delivering cloud connectivity via high-performance, secure and reliable solutions.

Alert Logic, the leader in security and compliance solutions for the cloud, provides Security-as-a-Service for on-premises, cloud, and hybrid infrastructures, delivering deep security insight and continuous protection for customers at a lower cost than traditional security solutions.

Altronix Corporation is a leading designer and manufacturer of low voltage electronic components. Altronix offers a comprehensive line of security, fire, CCTV, access, nurse call and automation products.

BEI Networks is excellence in network assessment, network installation, network upgrade, on-site WiFi survey, WiFi installation, WiFi post-installation survey, post installation training and knowledge transfer, and network stress-testing.

ComNet, is a USA-based company with the key functions of product development, engineering, manufacturing, customer-care and tech support. ComNet offers a host of Ethernet switches and media converters as well as video, data and Ethernet optic transmission products. ComNet supports its products to the highest level, offering unparalleled customer care.

Dell empowers countries, communities, customers and people everywhere to use technology to realize their dreams. Customers trust them to deliver technology solutions that help them do and achieve more, whether they are at home, work, school or anywhere in their world.
Data Networking and Storage Solutions (continued)

Edgewater Networks is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises of all sizes use Edgewater Networks solutions to simplify customer premise configurations for quick and smooth installations, reduce time to market and deliver rapid return on invested capital. The company helps customers deliver intelligence at the network edge with its Network Edge Orchestration platform that includes Intelligent Edge ESBCs and QuickConnect certification program, and the EdgeView Service Control Center.

Engenius offers products designed for the SME market providing long-range wireless communications solutions in demanding business environments, including indoor/outdoor wireless LAN products, client bridge access points and routers.

Extreme Networks delivers software-driven networking solutions that help IT departments everywhere deliver the ultimate business outcome: stronger connections with customers, partners, and employees.

InSpeed ensures that interactive applications including video, voice, messaging and enterprise productivity solutions, operate with high reliability and minimal management over existing network connections. Initially targeted at VoIP contact center, and video conferencing, InSpeed optimizes network traffic for Small and Medium-Sized Businesses (SMBs) so that garbled speech, annoying echoes, video artifacts and unresponsive applications are a thing of the past.

KTI Networks is a manufacturer of a broad range of network products which include network interface cards, transceivers, media converters and switches.

Multi-link is a manufacturer dedicated to the development and marketing of high quality telecommunications devices, including remote power management and fax phone switch devices, for a wide variety of commercial and government applications.

NETGEAR is a manufacturer of routers and gateways, Ethernet bridges, VoIP access points, managed and unmanaged gigabit switches, VPN firewall routers and PoE switching devices.

NVT Phybridge is the leader in long reach PoE, making IP connections in far places simple. Their CHARIoT series of long reach switches helps their customers migrate to an IP-based network, transforming the existing or new infrastructure into an IP path with power.

Vault America is a leading provider of cloud-based storage specializing in data backup, recovery, and archiving solutions. From small businesses to multinational enterprises and designed for channel partners, customers use Vault America’s cloud storage services to solve their data protection, retention and business continuity challenges.

Veloso is a Jenne, Inc. exclusive brand of High Performance Optics and Connectivity Solutions, offering competitive pricing and above average margin opportunities. Solutions consist of transceivers and high speed cabling for Network connectivity, Server connectivity, and Storage Arrays-Fiber channel for most OEM brands. Other products available consist of NIC Cards, Media Converters, and Multiplexers.

Zyxel is a supplier of broadband access and networking solutions for service providers, business and residential customers. Their enterprise-class product line includes security appliances, managed smart switches, wireless access points and VoIP solutions.

Voice Networks and VoIP Gateways

ADTRAN's ActivReach technology allows speeds of 10/100 Mbps native Ethernet over voice-grade copper and over extended distances.

Bogen is a leading provider of sound systems and telephone peripherals for commercial, industrial and institutional settings including overhead paging, school intercom and signaling to large-scale concert music systems.

Digium brings the cost savings of VoIP to legacy PBX with the powerful combination of a Digium IP Media Gateway and Digium SIP Trunking. The gateway acts as a bridge connecting the legacy system through a PRI interface to SIP trunks through existing internet connection.

Edgewater Networks is a market leader in enabling IP-based voice, video and data services. Service providers and enterprises of all sizes use Edgewater Networks solutions to simplify customer premise configurations for quick and smooth installations, reduce time to market and deliver rapid return on invested capital. The company helps customers deliver intelligence at the network edge with its Network Edge Orchestration platform that includes Intelligent Edge ESBCs and QuickConnect certification program, and the EdgeView Service Control Center.

InSpeed ensures that interactive applications including voice, video, messaging and enterprise productivity solutions, operate with high reliability and minimal management over existing network connections. Initially targeted at VoIP contact center, and video conferencing, InSpeed optimizes network traffic for Small and Medium-Sized Businesses (SMBs) so that garbled speech, annoying echoes, video artifacts and unresponsive applications are a thing of the past.

NVT Phybridge is the leader in long reach PoE, making IP connections in far places simple. Their CHARIoT series of long reach switches helps their customers migrate to an IP-based network, transforming the existing or new infrastructure into an IP path with power.

SureCall manufactures and sells a line of high-quality cellular amplifiers and accessories for the cell phone market. Their current flagship products are the SureCall™ line of FCC-approved signal amplifiers, which boost the range and reception of almost any call.

Audio and Video Conferencing Equipment

Avaya Aura Conferencing brings audio, web, and video conferencing into a single platform that can be used as the foundation of a unified communications experience, or offered as an over the top conferencing solution.

Avteq designs and manufactures video conferencing mobile stands and consoles with a new dimension to meet the demands of current technology.

American Music & Sound (AM&S) is a leading independent distributor of Pro Audio, Music Creation, and Musical Instrument products from the world’s finest manufacturers.

CAD Audio is a developer of paging and radio microphones, stands and accessories for the professional, commercial and installation audio industries.

Channel Vision is a leading manufacturer of RF video distribution products, structured wiring enclosures and modules, security cameras and high performance audio/video distribution systems.

Chief offers mounting solutions designed to support a wide range of audio/video applications from corporate boardrooms and facilities to home theaters and offices.
Audio and Video Conferencing Equipment (continued)

ClearOne is a global company that designs, develops, and sells conferencing, collaboration, streaming and digital signage solutions for voice and visual communications. The performance and simplicity of its advanced comprehensive solutions offer unprecedented levels of functionality, reliability and scalability.

HuddleCamHD is a U.S.-based company that manufactures USB connected conference cameras and speakerphones. Offering both wireless and wired USB webcams, HuddleCamHD is most known for its affordable USB cameras with pan, tilt, and optical zoom capabilities.

ImmerVision Enables is the open standard in delivering total 360° advanced immersive functionality in live and playback mode. Combined with cameras and software from leading manufacturer partners, panoramic lenses provide users with a complete view of their installations without blind spots, increasing situational awareness and improving response time.

Konftel is a global provider of high-quality analog, wireless and IP-based audio conferencing phones. They are well known for their patented audio technology, OmniSound®.

Kramer has been on the leading edge of Pro AV innovation for over 35 years. With hundreds of employees and partners serving thousands of customers across six continents, we remain committed to delivering smart technology products and solutions for a wide variety of markets and applications.

LG Electronics has led the way into the advanced digital era thanks to the technological expertise it has acquired manufacturing appliances since 1958. LG continues to pursue its 21st century vision of becoming a worldwide leader in digital—ensuring customer satisfaction through innovative products and superior service.

Plantronics offers one of the industry’s most complete families of corded and wireless products for unified communications. Plantronics’ headset audio solutions help companies extend the benefits of IP communications throughout the extended enterprise, fostering better communication regardless of where professionals are working.

Polycom® is the global leader in open standards-based unified communications and collaboration (UC&C) solutions for video and voice communication, trusted by more than 415,000 customers around the world.

PTZOptics is a U.S.-based company that manufactures PTZ broadcast conference cameras. PTZOptics cameras offer a wide variety of connectivity options including: HD-SDI, HDMI, USB 3.0 and IP Streaming.

Revolabs, Inc manufactures Wireless Microphone Systems used throughout the world and across a wide range of applications including conferencing, recording, podcasting, webcasting, broadcasting, as well as many industries such as financial services, education, medical, legal and houses of worship. All of the Revolabs products facilitate natural mobility by allowing participants to move about a workspace with no wires to worry about.

Sennheiser is a provider of headsets and headset accessories for call center, consumer, wireless, mobile, USB, Bluetooth™ and VoIP solutions.

VDO360 has developed the best-in-class camera to capture video, worked with Intel on the best-in-class computer, found the best-in-class microphone to capture audio and put together a great package to maximize value.

VPI is a leader in the video conference and A/V furniture market. They provide excellent products and services at competitive prices.

VTech is the #1 manufacturer of cordless phones in the world. VTech has translated its success in cordless telephony to create the ErisStation® Conference Phone with Wireless Mics and the ErisTerminal™ SIP phones.

SIP Sets and Business Telephones

Avaya is a global leader in business communications systems. The company provides unified communications, contact centers, and related services directly and through its channel partners to leading businesses and organizations around the world.

Citel is The VoIP Migration Company™. They develop the world’s most comprehensive portfolio of network-edge products enabling enterprises to realize the cost and productivity benefits of IP telephony, while leveraging existing telecom and datacom investments.

Digium’s family IP Phones for Asterisk are the first on the market built specifically for use with Asterisk and Asterisk-based systems. All models include HD audio and plug-and-play deployment at a price that fits any budget.

EnGenius DuraFon SIP is the first durable, long-range SIP cordless phone system. This multi-mode communications system delivers industry-leading range and durability while providing significantly lower CAPEX and OPEX compared to other SIP cordless phone solutions.

Mitel SIP phones offer exceptional features and flexibility in an open-standard enterprise grade IP telephone with functionality for any sized office.

Panasonic SIP Phones deliver worry-free operation, feature-rich interfaces and high performance. Panasonic has long-standing collaborative relationships with service providers — delivering seamless interoperability across the network.

Telefield is a leading designer and manufacturer of telecommunications products for SMBs in North and South America. Telefield’s expandable VoIP systems provide a perfect long term solution for any business.

Snom designs and manufactures professional and enterprise VoIP telephones. Snom produces robust, high-quality and feature-rich business telephones designed exclusively for the trained and certified professional IT and PBX installer, and universally compatible with the leading PBX platforms.

Spectralink, a global leader in wireless solutions, solves the everyday problems of mobile workers through technology, innovation and integration. By continually listening to customers on the move through their workdays, Spectralink is able to develop and deliver reliable, enterprise-grade voice and data solutions.

TeleMatrix hotel phones are beautifully engineered to fit the color, decor, and technical requirements for hotel guest rooms, lobby, and common areas. Choose from their 9600 Series cordless and 3300 Series corded models in analog or VoIP with optional color accent handset kit options.

Vtech is the #1 manufacturer of cordless phones in the world. VTech has translated its success in cordless telephony to create the ErisTerminal™ SIP phones.

Yealink is a manufacturer of high-quality VoIP telephone products that are reliable, cost effective, and have a typically high margin yield.
**Headset Solutions**

- **ClearOne** - Provides CHAT USB PC headsets for unified communications.
- **Logitech** - Provides headsets for use on all operating systems and platforms.
- **Panasonic** - A global leader in business communications, with over 30 years of experience manufacturing communications products and over 100 million phones produced to date.
- **Plantronics** - Offers one of the industry’s most complete families of cabled and wireless products for unified communications. Plantronics’ headset audio solutions help companies extend the benefits of IP communications throughout the extended enterprise, fostering better communication regardless of where professionals are working.
- **Sennheiser** - Provides headsets and headset accessories.
- **Vtech** - Offers a freedom of private, hands-free landline and/or cellular conversations anywhere in your home or office.
- **Yealink** - Provides over-the-head style headsets.

**Paging, Intercom, and Public Address Solutions**

- **Algo** - A trusted supplier and partner in telecommunications, with millions of IP endpoints, including PoE speakers, horns, paging adapters, strobes, push buttons, doorphone/intercoms, and specialty handsets, shipped globally.
- **Avaya** - A global leader in business communications systems. The company provides unified communications, contact centers, and related services directly and through its channel partners to leading businesses and organizations around the world.
- **Bogen** - A leading provider of sound systems and telephone peripherals for commercial, industrial, and institutional settings including overhead paging, school intercom and signaling to large-scale concert music systems.
- **Channel Vision** - Provides products that range from wire connectors, benders, lubes and fish tape to sophisticated electrical testers, datacomm equipment and wire connectors.
- **Clearchan** - Provides solutions for protecting power supplies and door entry systems.
- **Eaton** - Offers a full line of mass notification solutions applicable but not limited to the retail, government, military, industrial and education sectors.
- **Fluke Networks** - A provider of Category 5e and 6 test equipment.
- **Garmin** - Provides a comprehensive line of security, fire, CCTV, access, nurse call and automation products.
- **Honeywell** - Provides Genesis Series cables for security, fire, sound, video, structured cabling, voice and data, and other low voltage applications.
- **Hitachi** - Provides copper premise cable, fiber optic cable, electronic round cable, electronic ribbon cable and custom cable.
- **Honeywell** - Provides Genesis Series cables.
- **Hubbell Premise Wiring** - A global manufacturer of structured cabling systems, enclosures and accessories.
- **ICC** - A performance-value leader in network connectivity and cable management including: workstations, fiber optic systems and outlets, racks and cable management and raceway systems.
- **Ideal** - Provides a variety of products that range from wire connectors, benders, lubes and fish tape.

**Installation Supplies and Tools**

- **3M** - Provides telecommunications connectivity and adhesive products for the electrical marketplace.
- **Algo** - Provides a full line of mass notification solutions applicable but limited to the retail, government, military, industrial and education sectors.
- **Altronix** - Provides a comprehensive line of security, fire, CCTV, access, nurse call and automation products.
- **CableSys** - Provides a comprehensive line of security, fire, CCTV, access, nurse call and automation products.
- **Channel Vision** - Provides products that range from wire connectors, benders, lubes and fish tape to sophisticated electrical testers, datacomm equipment and wire connectors.
- **Clearchan** - Provides solutions for protecting power supplies and door entry systems.
- **Eaton** - Provides a full line of mass notification solutions applicable but not limited to the retail, government, military, industrial and education sectors.
- **Garmin** - Provides a comprehensive line of security, fire, CCTV, access, nurse call and automation products.
- **Hitachi** - Provides copper premise cable, fiber optic cable, electronic round cable, electronic ribbon cable and custom cable.
- **Honeywell** - Provides Genesis Series cables.
- **Hubbell Premise Wiring** - A global manufacturer of structured cabling systems, enclosures and accessories.
- **ICC** - A performance-value leader in network connectivity and cable management including: workstations, fiber optic systems and outlets, racks and cable management and raceway systems.
- **Ideal** - Provides a variety of products that range from wire connectors, benders, lubes and fish tape. 
Installation Supplies and Tools (continued)

Middle Atlantic is a manufacturer of rack enclosures, monitoring consoles, data cabling management products, audio and video studio furniture, power distribution products and related accessories.

Moog Videolarm is recognized as the innovator of today’s pressurized and bullet-resistant outdoor domes. They offer a wide assortment of cameras, illuminators, brackets and CCTV accessories.

NET Source provides best-of-breed IT infrastructure solutions, services and security to small, medium and large enterprises alike.

NVT Phybridge is the leader in long reach PoE, making IP connections in far places simple. Their CHARIoT series of long reach switches helps their customers migrate to an IP-based network, transforming the existing or new infrastructure in to an IP path with power.

Oberon is a leading designer and producer of in-building enclosures and antenna products for cabling, wireless voice and data network infrastructure products.

Manufacturers of passive and active infrared technology, control systems, and CCTV products which are applied in the fields of Security, Automatic Door Controls, and Factory Automation.

Pentair, formerly Ecoro, services the communications market with cable support systems and faceplate brackets for Category 3 voice networks, as well as for high-speed Category 5e and 6 cabling infrastructures, components and accessories.

Raytec Systems is a world leader in LED lighting, manufacturing a complete range of Infrared and White-Light LED illuminators for CCTV and Safety Critical applications. Raytec delivers outstanding performance together with low costs of ownership and maintenance.

Suttle is a leading manufacturer of communication connectivity products to major service providers and installers.

Power Protection/UPS

APC is a manufacturer of network-critical physical infrastructure (NCPI) solutions, designed for both home and corporate environments of all sizes.

DITek Corporation has been the industry leader in the design and manufacturing of surge protection devices and systems for more than 20 years. DITek provides total surge solutions for low voltage CCTV, Fire and Intrusion, Access Control, and Voice/Data/Signal applications, including VoIP and PoE. They also offer a complete line of hardwired suppressors and arrestors for main and distribution panels, as well as point of use equipment.

ITW Linx is a provider of a full line of lightning and surge protection products covering the breadth of the AC, telecom and datacom markets – from rack mount solutions to pair-by-pair block protectors.

Minuteman Power Technologies is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices (UPS products are available from 325VA to 10KVA).

Tripp-Lite is a leading provider of uninterrupted power supplies for telephones, computers and data communication devices for both individual station or network systems.

Xtreme Power Conversion® designs, produces and delivers power quality and data center solutions with UPS and power distribution equipment that solves real-world customer problems while providing one of the best cost-to-performance ratios in the industry.

Voice Management Add-ons

AdvaTel is a leader in many specialist disciplines in the development of value-added solutions within the telecommunications and contact center industries. Their solutions range from real-time analytics reporting to SIP based telephony attendant consoles, marketed globally through its cross sections of industry business partners.

Calero offers a wide range of Communications Lifecycle Management (CLM) solutions designed to turn communications data into actionable insight by simplifying the management of voice, mobile and other unified communications (UC) services and assets.

DATEL Software Solutions, LLC creates innovative, user-friendly, contact center and call accounting solutions at an affordable price DATEL has displaced many traditional reporting packages and carved out a niche in the telecommunications software industry.

DuVoice is a developer of stand-alone voicemail systems, messaging system software and turnkey systems for general business office environment and the hotel/motel industry.

Mutare is an independent software developer driven by a passion to make information access easier. Mutare writes software solutions to unify communications specializing in messaging, mobile apps, self-service IVR and notification systems.

PICA Product Development, formerly known as Nel-Tech Labs is a USA manufacturer of audio messaging systems. These devices provide solutions for various applications including: Music and Message On Hold, Business Music and Timed/Triggered Messaging.

Trisys is a designer of employee productivity and resource software that lets management clearly identify how employees utilize their time for business and non-business purposes.

Specialty Communication Products

CEEco is a provider of emergency, security, courtesy and public telephone equipment, delivering high quality technology to its customers in the private and public business sectors.

Comm ETC is a supplier of ear cushions for telephone headsets.

Konexx is a leader in the field of telephony products with a line of digital voice recorders and telephone recording software packages designed to function with various platforms from analog to digital.
**Physical Security**

Multi-link is a manufacturer dedicated to the development and marketing of high quality telecommunications devices, including remote power management and fax phone switch devices, for a wide variety of commercial and government applications.

MultiTech is a global manufacturer of award-winning external and embedded modems, and unified communications products that connect data over cellular and analog networks from anywhere in the world.

SureCall manufactures and sells a line of high-quality cellular amplifiers and accessories for the cell phone market. Their current flagship products are the SureCall™ line of FCC-approved signal amplifiers, which boost the range and reception of almost any call.

TeleMatrix hotel phones are beautifully engineered to fit the color, decor, and technical requirements for hotel guest rooms, lobby, and common areas. Choose from their 9600 Series cordless and 3300 Series corded models in analog or VoIP with optional color accent handset kit options.

Viking is a provider of telephone accessories, entry controllers and door boxes, apartment entry systems, elevator access and communication devices, industrial paging and telephony control devices.

**Situational Alerting and Monitoring**

SureCall manufactures and sells a line of high-quality cellular amplifiers and accessories for the cell phone market. Their current flagship products are the SureCall™ line of FCC-approved signal amplifiers, which boost the range and reception of almost any call.

MultiLink is a manufacturer dedicated to the development and marketing of high quality telecommunications devices, including remote power management and fax phone switch devices, for a wide variety of commercial and government applications.
Jenne, Inc., is a leading U.S. based value-added distributor of technology products and solutions focusing on unified communications and collaboration, data networking, video conferencing, physical security, the Internet of Things (IOT), and the cloud, including equipment and software for the Enterprise and SMB markets. Jenne is dedicated to tracking emerging technologies, and offering fresh solutions, new equipment and related applications. Our “high touch, fast response” model allows our customers to be more successful more quickly. More than 180 major manufacturers partner with Jenne including Avaya, ADTRAN, Digium, Extreme Networks, Hanwha Techwin America, Konftel, Lifesize, Mitel, Panasonic, Plantronics, RingCentral, Spectralink, Status Solutions, VTech and Yealink.

Jenne is committed to providing value-added resellers, integrators and service providers with:

- A broad product selection representing more than 180 leading technology companies leading technology companies.
- Value-added web tools to enable resellers to be more effective and efficient, including design and configuration tools, job aids, service contract renewal and cloud solutions portals.
- Financing options including partnerships with leading financing and leasing companies.
- Marketing consultation and support, including turnkey campaigns available through Jenne Marketing Pro.
- Sales and technical training through Jenne University.

The Jenne Team is Available to Help You

- Jenne’s Business Development Team is 100% committed to assist with all of your needs, including product selection, programs, and special price requests.
- Jenne’s Inside Sales Team members are knowledgeable on our vendors’ complete line of products and are available to answer questions and to help place your order.
- Jenne’s Territory Business Development Directors introduce new technology and industry best practices that contribute to a partner’s business plan development and execution.
- Jenne’s Total One-Stop Sourcing provides Value Added Resellers (VARs) with a single source for all the products they need to be successful at the lowest total cost.

Operational Support

Jenne provides unparalleled operational support - we are experts in distribution!

- Same day shipping on orders placed before 7 p.m. EST.
- An industry-leading order fill rate - 99.98 percent.
- On-time shipments – 99.89 percent.
- Drop-shipping capability and custom branded delivery documents – cut days and cost out of your deliveries.
