

Jenne is Your Value-Added Distributor for Adtran.

Jenne, Inc. Now Offers the Full Line of Adtran Products

BUSINESS NETWORKING

Adtran keeps your customers' networks running smoothly, so they can focus on what matters most-- their business and their customers. Our enterprise-class products are backed by industry-leading support and warranties.

Routers

Feature-rich NetVanta routers deliver the power and performance needed for high-quality VoIP and other bandwidth-intensive applications.

Switches

High-performance ethernet switches support high-bandwidth applications, and offer advanced technology to deliver PoE and flawless VoIP.

IP Business Gateways

IP business gateways provide firewall, VPN, and SIP-gateway functionality, as well as support for analog and digital interfaces on existing phone equipment.

Business Wi-Fi

Business Wi-Fi offers next-generation Wi-Fi experiences with premier access points and Express Cloud. Elevate the experience with Elite Cloud to include advanced features.

IoT Gateways

Adtran's feature rich indoor IoT gateways deliver seamless applications for smart buildings. Use our IoT gateways to improve building operations, reduce energy costs, and facilitate staff productivity.

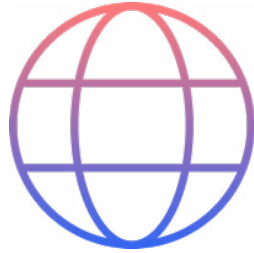

SERVICES

With over 35 years of experience deploying broadband solutions, Adtran has the expertise needed to successfully elevate your customers' networks. Adtran services will improve operations, maximize infrastructure value, and boost subscriber experience. Leverage our leading services for premier network performance.

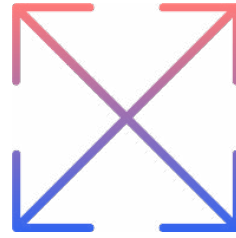

TECHNOLOGY EXPERTISE

Unmatched core competencies in broadband solutions and services.

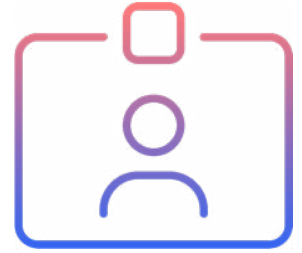

GLOBAL PRESENCE

Services operations across Americas, EMEA and Australia.

SCALABLE SERVICES

600+ Services Professionals and 175+ Service Partners around the world.

PROVEN CAPABILITIES

75,000+ Network Implementation projects delivered.

FIBER ACCESS

Adtran helps communications service providers build full fiber networks by leveraging PON technology that delivers gigabit access to homes and businesses, as well as efficient infrastructure backhaul. Adtran's offerings ensure flexible system configurations to suit your needs.

OPTICAL LINE TERMINALS (OLTs)

Adtran's industry leading fiber access platforms simplify high-capacity broadband delivery regardless of density, topology, application, or technology. Deliver gigabit access to homes and businesses with next generation PON technology.

OPTICAL NETWORK TERMINALS (ONTs)

A comprehensive portfolio of ONTs for single-family units, multi-dwellings, small-to-medium sized businesses, and enterprise deployments.

ACCESS AND AGGREGATION SWITCHES

Reach your network's full potential by leveraging AI-driven, high-capacity aggregation switches and achieve a resilient, scalable, future-ready network.

FIBER EXTENSION

Adtran unifies hard-to-reach urban and rural locations with next generation broadband technologies. Accelerate your delivery of the Gigabit Society experience using the industry's broadest range of fiber extension solutions, including fiber-to-the-x (building, node, or antenna) architectures.

GFAST ONUs

Deliver symmetric gigabit broadband into MDUs and apartments using FTTB architectures and existing wiring. Expedite time-to-market while lowering costs.

MULTI-SERVICE ACCESS NODES (MSANs)

MSANs simplify broadband delivery with capabilities over both copper and fiber networks. MSANs provide a seamless migration path to next generation, high capacity 10G FTTH networks.

MINI DSLAMs

Deploy up to 600Mbps services in remote and rural locations using sealed, temperature hardened, Vectored VDSL2 and Super Vectoring FTTN systems.

FIXED WIRELESS ACCESS

Extend fiber capabilities to underserved rural markets, dense urban locations or simply extend the LAN to a remote location. Avoid the labor and costs of cable digs with next generation mmWave fixed wireless access solutions that are fast and easy to deploy.

CONNECTED HOME

Give your customers a seamless experience that leverages open platforms, faster services rollouts, and reduced energy consumption. Adtran's next-generation service delivery gateways (SDGs) offer consistent, multi-gigabit performance and low-latency. Optimize network operations, customer experience, and target marketing with AI driven SaaS applications.

RESIDENTIAL GATEWAYS

Adtran's Residential Gateways are fully integrated, service delivery platforms that optimize the subscriber experience with a seamless, simplified home network.

ADAPTIVE Wi-Fi

Powered by Plume, the aesthetically designed SuperPod plugs straight into the wall. Dual ethernet port, tri-band SuperPods ensure whole home adaptive Wi-Fi coverage.

MOSAIC ONE

Simplify the management of your networks and optimize subscriber experience with a single platform. One centralized view of deployed devices provides greater opportunity to improve your operations and your target marketing.

About Jenne

Jenne, Inc. is a leading Cloud Services Brokerage and Value-Added Distributor serving agents and value-added resellers throughout the U.S. We focus on Unified Communications and Collaboration, Networking and Infrastructure, Physical Security, Video Conferencing and the Internet of Things (IoT).

Partner with Jenne and Adtran to take advantage of these services:

- Same-day shipping from Jenne's on-hand, in-stock inventory on orders placed before 7 p.m. EST.
- Inside Sales Team members that are certified on the complete line of Adtran products, available to answer questions and to help place your order.
- Territory Business Development Directors who introduce new technology and industry best practices that contribute to a reseller's business plan development and execution.
- Total One Stop Sourcing providing single source for all the products resellers need to be successful at the total lowest cost.
- Industry-leading 99.98 percent, with 99.89 percent on-time shipments.
- Jenne University offers state-of-the-art training facilities, webinar instruction and regional training across the country.
- Free technical support Monday through Friday 8 am – 8 pm EST.
- 24/7 web-based resources for product information and transaction business.
- Complimentary consultative marketing support.

About Adtran

Adtran's vision is to enable a fully connected world where the power to communicate is available to everyone, everywhere. From the cloud edge to the subscriber edge, Adtran helps communication service providers around the world manage and scale services to connect people, places, and things. With a customer-centric approach, and values that foster advancement and growth, Adtran delivers solutions for organizations of all sizes and categories. Whether rural or urban, telco or cable, enterprise or residential—Adtran solutions optimize existing technology and revolutionize new technology. New multi-gigabit platforms leverage AI-driven, cloud-based analytics for an open ecosystem that can enhance network operations and customer experiences. Adtran—unlocking the future network.
