MeetUp 2

All-in-one USB conference camera for small meeting rooms.

9:36 AM

SVC
Presidio

Upgrade small meeting rooms with MeetUp 2, a USB camera with AI features that simplify the meeting experience for everyone.

MeetUp 2 brings a simple setup, advanced AI-enabled audio and video features, and easy management to USB-based deployments in small rooms. MeetUp 2 is certified or compatible with popular video platforms such as Microsoft Teams, Zoom, and Google Meet, and it can function in USB mode with either an in-room PC or when connected to a laptop in BYOD mode.

Features

Works with leading video conferencing platforms

Leverage the video conferencing platforms and features you already use. MeetUp 2 works[1] with* leading video platforms like Microsoft Teams, Zoom, and Google Meet.

AI audio and video in BYOD and PC rooms

MeetUp 2 brings intelligent audio and video experiences to small rooms. Includes AI-based audio and video features that become more capable over time through regular updates that improve performance, add capabilities, and deepen integrations.

Digital PTZ with up to 4X zoom

MeetUp 2 creates a seamless meeting experience with digital pan and tilt and image quality up to 4X digital zoom. Ensure all remote participants can see and hear clearly, for a better meeting experience.

PC and BYOD deployment

Have the flexibility of deploying in USB mode with an in-room compute or in BYOD mode connected to a laptop. Compatible with the platforms commonly used for video conferencing such as Microsoft Teams Rooms on Windows, Zoom Rooms on MacOS/Windows, and Google Meet on Chromebox.

*Certifications and compatibility details updated closer to product availability, visit logitech.com/support/vc-certifications for more details

Digital signage ready

When MeetUp 2 is deployed in BYOD mode, leverage static digital signage, a new feature for BYOD setups, through Logitech Sync, Appspace, and other platforms[2].

[2]Compatibility with Appspace and other platforms is coming soon

Flexible deployments with the multi-mount

Multi-mount enables an easy and flexible installation. Attach MeetUp 2 to a display, table, or wall to get the most out of your huddle and small spaces.

Clear Voice Pickup with AI-Driven Audio

MeetUp 2 optimizes sound to enable everyone to be heard clearly, using AI for noise suppression, echo suppression, and voice equalization with RightSound 2. With six beamforming microphones and a pickup range of up to 7m (23 ft), MeetUp 2 allows up to six people in a small room to be heard clearly without the need for additional microphones.

Device management through Sync

Easily manage your MeetUp 2 and other Logitech video collaboration devices with Logitech Sync. Install the Sync app on the in-room PC or manage and configure remotely through Ethernet or Wi-Fi in BYOD mode.

Easy connectivity for BYOD

Single-cable connectivity for BYOD. Built-in ethernet port and Wi-Fi connectivity allow multiple options for the device to quickly connect to the internet in BYOD setups.

Manual privacy shutter

Provides a sense of privacy in the room when the camera is not being used.

Clean cabling and secure wire management

Ensure clean, confident installs with secure cable management and minimal cabling.
